

EXCURSIONS

Opening with a select exhibit from the Ontario Craft Council's permanent collection, "Excursions", is the special showings gallery in the Village.

Exhibits and shows will change frequently, and plans are underway to feature specific crafts such as, Canadian Glass and Leather-art, as well as student showings from the Ontario College of Art and Sheridan College's Craft and Design School. "Excursions" is destined to become an exciting and respected gallery in its own right.

THE JOURNEYMAN

Although the talent and dedication of the resident Artisans becomes readily apparent as you watch them at work in their studios, a true appreciation of their artistic excellence can only be realized by examining the finished works in the Journeyman

Gallery. The quality and variety of their work makes this the focal point of the Artisan Village, and a place you will want to visit regularly. Be sure to request that you be placed on the special showings and events mailing list.

GENERAL STORE

Good Tidings

Most Villages have a General Store, and the Artisan Village is no exception. The "Leathertown General Store" carries you back to the days when wooden bins were heaped full of fresh nuts, candy and dried fruits. The counters and shelves are always well-stocked with a variety of special teas, freshly ground coffees, homestyle jams and preserves, fresh honey and maple syrup. Take a short step back in time into the warm and pleasant atmosphere of the "Leathertown General Store".

Merry Christmas!

You can catch the spirit early by browsing through "Good Tidings". An extensive display of quality crafts, decorations and ideas for the year's finest season occupies the third gallery in the Village. The New Year will see this transform into a Naturalist Art Gallery, with originals and prints by some of Canada's foremost nature artists. In the meantime, treat yourself to a preview of the warmth and cheer of Christmas in "Good Tidings".
