

This is not a trick or superimposed photograph, this is the reel thing-40 pounds of fighting Mackinaw, better known as Lake Trout landed by a former Acton resident, Douglas Garrett while on a recent trip to Neulton Lake in the North West Territories. Along with a party of four fisherman, they landed and released a total of 385 trout; with many over 30 pounds. Incidently, this fish is still swimming, released along with the rest of the catch. Makes one wonder if just (maybe) you could sneak out on a trip in the coming season, possibly win/ a lottery or the like. . . ah well.

Fishing is slow in most local areas due to high unseasonal water conditions, some nice Cohoe are in the Credit at Norval along with plenty of Rainbows, plus the odd MNR persomel, so let those rainbows go unharmed.

By the look of the pollution report coming out of the Niagara River, even the fish are shortly going to have a hard time not to mention the human population around Lake Ontario. Man's inhumanity to man, when you cannot find a clean drink of water, one is in serious trouble.

Listening to reports of Pickerel fishing in the past summer and fall in Georgian Bay areas, plus my own efforts in the last few weeks brings myself and many other anglers to one conclusion only, the failure of the MNR to close out the commercial fishing in Georgian Bay is now a disaster. It would take many years of restocking to bring this area back to any semblance of its potential.

On the weekend past, sporadic small arms fire plus what sounded like mortar rounds and automatic weapons were discharged in the Fourth Line area of Halton Hills, north of Highway 7. Several calls to myself were made to inquire if some sportsmen were embarking on a new gun club. Such is not the case. Ontario has a good range for army training at Camp Boarden that I believe looks after quite adequately, the needs of training soldiers in the marshal arts. Possibly children's youth camps should stay just that and not start makign noise that detracts from real sports-
