**Tight Lines**  
The news letter I just received from Halton Hills Trout Club owner is interesting. The statistics for 1982 show that close to 8,000 trout were caught by angling and almost half of this amount were released.  
Some anglers believe in that saying; that they are sporting enough to be caught more than once and that's true all the way from the first jump to the grassy edge of the bank where the barbless hook is removed.  
**Larger Trout**  
John and Juanita Harrington inform me that the trout were larger than those caught in 1981. John also informs me that close to 50,000 trout were sold for food in 1982. Mrs. Harrington has proved she is quite capable at looking after the complicated operations when John is away teaching at school.  
We are fortunate to have this club in our area. Most anglers value the recreation part of the club outing more than the amount of trout caught. The club is open all year.

Remington Arms Company, Inc.  
Trap shooters, skeet shooters and sport hunters will find Remington's new line of guns much to their liking. In 1983 Remington is introducing the Model Seven center fire rifle. It will weigh just 6 1/2 lbs. In profile, it looks good—slim and stylish. In a shooter's hands, it feels good—well balanced, light and quick to point, almost like an upland shotgun.  
The Model Seven will be chambered for the .222 Remington, 243 Win., 6mm Remington, 7mm-08 Remington and .308 Win. cartridges. All this adds up to a smooth firearm from this writer's view.  
**Speckled (brook) Trout**  
The Big Fish Contest is sponsored by Molson and all the paper work is administered by The Ontario Federation of Anglers and Hunters. The contest brings forth the lunkers in all species.  
The popular Brook trout, though, is always an eye catcher and the Nipigon River and Lake Nipigon helps to keep it that way; it produced seven entries out of 15 that weighed from 9 lbs., down to a 6 lb., 4 oz. beauty.  
It's that time again, So Enjoy the Outdoors, Safe Journey, And Tight Lines.
