

Students work with police

The Halton Regional Police force is participating in a government-sponsored summer student program to aid crime prevention officers in the region.

Called Summer Work Program, six post-secondary students have been hired by the federal government to aid the Halton police force with problems like home and business security, break-ins and hit and run occurrences.

Two students will work in North Halton with Crime Prevention Officer Bob Ustryki, attempting to aid the force in achiev-

ing better hit and run statistics.

"To me, this (hit and run) is a serious crime," said Constable Ustryki, adding that a hit and run offence can range from a pedestrian being struck by a vehicle to a vehicle being struck in a parking lot.

"Hit and run drivers are always hard to apprehend due to the lack of evidence and the lack of witnesses," he explained.

The students will enable the Crime Prevention Officer to gather statistics on hit and run occurrences, in an attempt to discover the extent of the hit and runs in North

Halton. "They'll be talking to body shops and insurance companies as well as setting up a phone system to cut down the time involved for the officers on the road," Constable Ustryki said.

According to Crime Prevention Coordinator Sergeant Rick Kivel, the federal government pays for the students, but it is the force's responsibility to place the students in a particular job.

"It's really a good working experience for these kids," Sgt. Kivel said, adding that the program commenced on May 23.

Out doors

Lures
It's that time again when a choice of lures is of much concern.

Red and White
The red and white lure goes under several names such as, red devil, red and white, Daredevil, the White Striper and a few others depending on the area where its worked.

I have used it over the years and I found it good for producing different species of game fish when used in different sizes.

It has a tantalizing zig-zag action in the water when it is fished right. A split ring attached will bring out the action that fish can't resist.

It produces in weedy shallow areas or in deeper water.

It should be fished slowly from the bottom up with the line fastened to the split ring with a single barrel knot. This knot should be tied with a double line

for extra strength. It's important to keep hooks sharp for quick penetration.

Speckled Trout
Several years ago this lure in 2 1/2" size took several trophy brook trout. The smaller size took smaller trout.

Pike
Pike in Oshawong Lake, Nemagos Lake and the Port Severn, area did much to give this famous lure its name as the "greatest game fish lure in the world."

It's made in several different colors today, and that includes the frog, five of diamonds, and the potato bug. The super sized one is used in the far north for trophy lakers and pike.

Pike Minnow
Another good lure is the Pike Minnow for pike and muskies but then that's another story.

ENVIRONMENTAL ASSESSMENT
LANDFILL COMPONENT OF SOLID WASTE MANAGEMENT

YOU ARE INVITED TO A PUBLIC MEETING TO DISCUSS HALTON'S DISPOSAL SYSTEM FOR THE FUTURE

The consultants preparing the Regional Municipality of Halton's Landfill Component Environmental Assessment have presented the First Stage of their study Waste Needs and Systems Analysis to the Solid Waste Management Committee. The Committee received the report in draft form in April. The consultants have analyzed public comments on the Stage 1 Report and have prepared an Addendum along with a Final Work Program for the Overall Environmental Assessment.

The Solid Waste Management Committee will be considering the Final Stage 1 Report and Final Work Program, on June 6 at 1:30 p.m. and will be making recommendations to determine the location of Halton's Solid Waste Management System for the next twenty years. The alternatives being considered include an Energy from Waste System, a Resource Recovery System, an Export System and a Landfill System.

The Solid Waste Management Committee recommendations will be considered at a special meeting of the Planning and Public Works Committee on June 15 at 7:00 p.m.

The Planning and Public Works Committee recommendations will then be considered by Council on Wednesday, June 22 at 1:30 p.m.

Residents of Halton are invited to attend these series of meetings. If you wish to be a participant at any of the meetings, please make arrangements with the Regional Clerk.

Location	Regional Administration Building, 1151 Bronte Road, Oakville	June 15, 1983	June 22, 1983
Time	June 6, 1983	June 15, 1983	June 22, 1983
	1:30 p.m.	7:00 p.m.	1:30 p.m.
Committee	Solid Waste Management	Planning & Public Works	Regional Council

Burns Derby June 4, 5

Fishermen of all ages are invited to come out to the Burns Nature Area on SATURDAY and SUNDAY, JUNE 4 and 5, for the ninth annual Burns Fishing Derby.

It's a great opportunity to bring your family out to Burns and try your luck at landing a rainbow trout. The pond has been stocked by the Halton Region Conservation Authority especially for this event with 8 inch to 24 inch rainbows.

The Derby will start at 6:30 a.m. each morning and end at 8:30 p.m. on Saturday and 6:00 p.m. on Sunday. Registration is \$3.50 per person for the weekend and children 12 years of age and under and Senior Citizens are \$1.50 for the weekend.

There are some great prizes to be won. Food and refreshments will be available and an early bird breakfast will be served each morning free to the first 75 fishermen to register.

To get to the Burns Nature Area, exit off Highway 401 at the Guelph Line exit and proceed north (past the Mohawk Raceway) to No. 10 Side Road, proceed west (turn left) to the Burns Nature Area. It is located at the corner of No. 10 Side Road and the First Line.

For further information, please contact the Halton Region Conservation Authority at 878-4131 or 854-2741.

\$125,000 grant from Wintario

Overwhelming support from public officials from right across Halton helped the Crawford Lake Indian Village and Conservation Centre project win a \$125,000 grant in Wintario Lottery funding from the province of Ontario.

The Halton Region Conservation Foundation, which has completed the first year of a three-year campaign to raise \$700,000, had originally applied for a \$228,000 Wintario grant. However, the initial grant was turned down.

"I have no doubt the massive support for the project shown by all the Halton government representatives was a major factor in having our re-application approved," said Louise Hebb, chairman of the Foundation.

Jim Dills, a former publisher of this newspaper, was presented with the Medal of Merit at ceremonies at the Halton Region headquarters in Oakville, Sunday. A resident of Milton, he was Asst. Provincial Commissioner for Halton for four years and his quiet leadership was responsible for organizing the Region.

Art in the Caledon Hills

Christine Marshall and Richard Berghammer are two of the respected artists who will be featured at this year's "Art in the Caledon Hills". The show will be held from 9 a.m. to 5 p.m. in the grounds of Caledon Central School, one mile East of Highway 10 in the Village of Caledon, on Saturday June 18 and Sunday June 19. At least 50 exhibitors will be on hand to display and sell their work, mostly outdoors, but inside the school in case of rain.

Many of the exhibitors live in the Caledon area. Their appreciation of their beautiful surroundings is reflected in their work, in which rolling hills, tumbling streams and heritage architecture predominate. Works by Terry McDonald, Eva Oram, Jack Reid, Dave Creighton and Rod Adams will all be found at the show.

Local wildlife artists are well represented this year. Christine Marshall's beautiful magic realism will be on show, including some of her latest edition prints.

Richard Berghammer, will display some of his magnificent sculpted leather paintings of wilderness scenes, one of which he has donated to be raffled for the Optimist Lift for Georgetown High Fund and Vivienne Metcalfe, the paper sculptor, will demonstrate some of the intricate techniques used in creating her three-dimensional bird portraits.

"Invest in Future" IODE assists Labrador

Over \$90,000 has been contributed to the IODE's new project, "Invest in the Future", it was revealed at the national chapter's 83rd annual meeting at the Algonquin Hotel, St. Andrews-by-the-Sea, New Brunswick, May 19-22.

National President, Ann McCartney, Toronto, announced that the funds would be invested and the income used to go on to post-secondary studies. Special guest, John Butt, MHA for Conception Bay South, St. John's, Newfoundland, brought greetings to the meeting and expressed appreciation on behalf of his government for the IODE's continuing program of assistance to Canadians in Labrador.

Other guests who attended the opening ceremonies, special dinners and participated in the meeting were: His Honour George Stanley, Lieutenant-Governor of New Brunswick, and Mrs. Stanley; Leland McGaw, Chairman of the New Brunswick Electric Power Commission, representing Premier Richard Hatfield;

Robert Knox, Toronto, Vice-President, Public Affairs, Simpson-Sears Ltd.; and David Stewart, Montreal, Chairman, Macdonald Stewart Foundation.

The 500 delegates attending the meeting heard that a record \$1.6 million was expended in 1982-83, including \$365,000 in education work and \$960,000 in services work. The IODE, a women's volunteer service organization, has 15,000 members in nearly 600 chapters in cities and towns in all ten provinces and both territories.

National officers were elected for the year 1983-84 and are: President, Ann McCartney, Islington; First Vice-President, Barbara MacEachern, Brechin; Second Vice-President, Suzanne Williams, Toronto; Vice-Presidents: Winnifred Anderson, Cobourg; Helen Dick, Thornhill; Helen MacKenzie, Weston; Barbara Vivash, Toronto; Secretary, Nancy Lymburner, Toronto; Treasurer Shirley Cheahire, Islington, Ontario.
