Accompanied by his wife Carole, Larry Grossman, Ontario Health Minister paid a visit to Milton Monday evening. The occasion was a special one for members of the Milton District Hospital Foundation who received the official approval to proceed with plans for a $15 million expansion to the local hospital.

## P.C. Meeting

# Grossman approves funds

The annual general meeting of the Halton-Burlington Progressive Conservative Association was held Monday, May 16 in Milton at the Herigate Inn.

Guest speaker for the evening was the Honorable Larry Grossman, Minister of Health, who announced the approval of funds for the expansion of Milton District Hospital and spoke of the health care system in the Province of Ontario. Since Mr. Grossman was formerly Minister of Tourism it was appropriate to promote some of the good things from the Halton area and Irene Saunders presented him with honey from Hornby Apiaries, apples from Chudleighs Apple Farm, a leather key chain from the Olde Hide House in Acton and a cap from the Ontario Agricultural Museum as well as a softball signed by members of the executive as it was learned that one of Mr. Grossman's favourite pastimes is playing ball with his family.

Scrolls in recognition and honour for long and faithful service to their community and to the P.C. Party were presented to Mary Thomas, Alf Jurss, Merle Young, Bella King and George Stokes. The presentations were made on behalf of the Province and the Halton-Burlington Riding by the Hon. Larry Grossman and President Ken McDonald.

The Halton-Burlington P.C. Association executive elected for the next term of office is as follows: President—Ken McDonald, 1st Vice-Pres. Roy Galloway, 2nd Vice-Pres., Ronald Flannagan, Secretary, Irene Saunders, Treasurer, Bill Mercer.

Area Directors elected are: Burlington, Doris Gould, Nassagaweya, Roy Wood, Acton, Marie Shadbolt, Georgetown, Ab Tennant and Milton, Dick Clement.

Directors at Large: Ross Ballantine, Acton, Robert Serena, Burlington, Ric Morrow, Georgetown, Barb Pentland, Milton and Susan Brethet, Nassagaweya.

WHO HIRES STUDENTS? WE ALL DO!

Every year, governments and businesses, large and small, create thousands of summer jobs for students. Students count on these jobs to earn money so they can return to school, and to help build the experience that builds careers. The Government of Canada helps to match students with jobs by establishing over 400 special Canada Employment Centres for Students right across the country.

This year, many students are hoping to find jobs in the neighborhoods where they live, working with homeowners for a month, a week or even a day. If you'd like some help building a fence or painting your house, hire a student to help. You'll find the work goes more quickly with two.

In business, you can count on students to fill in for vacationing staff. Many students have special training in business, the sciences, computer processing and other fields, that enables them to take on responsible summer jobs.

To hire a student this summer, call the Canada Employment Centre for Students nearest you. Don't wait for someone else to come up with summer jobs for students.

THIS IS THE YEAR THEY NEED YOU.
HIRE A STUDENT.

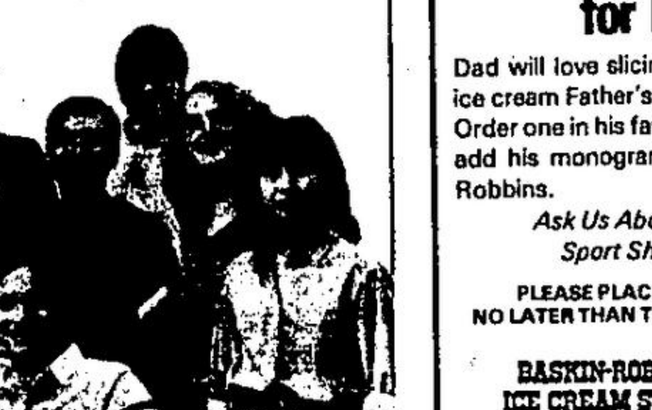
*Pulp and Paper Reports:*

Leading Industry



(Source: Statistics Canada)

In this era of electronics and high technology, it is easy to overlook the importance of the resource industries to the Canadian economy.

Converting the forest harvest into hundreds of useful products creates more incomes than any other Canadian manufacturing activity. The forest industry still employs more people and pays more wages than any other sector of the economy.

When it comes to earning foreign currency through exports, forest products make the largest single contribution to Canada's trade balance, more than metals, food and agriculture, fisheries and the automotive industries...combined.

Natural resources have always been the foundation of Canada's economy. And none has contributed as much as the forest.

ENVIRONMENTAL ASSESSMENT
LANDFILL COMPONENT OF SOLID WASTE MANAGEMENT
HALTON

YOU ARE INVITED TO A PUBLIC MEETING TO DISCUSS HALTON'S DISPOSAL SYSTEM FOR THE FUTURE.

The Consultants preparing the Regional Municipality of Halton's Landfill Component Environmental Assessment have presented the First Stage of their study, Waste Needs and Systems Analysis to the Solid Waste Management Committee. The Committee received the report in draft form in April. The consultants have analyzed public comments on the Stage 1 Report and have submitted an Addendum, a Report on Submissions, along with the Final Work Program for the Overall Environmental Assessment.

The Solid Waste Management Committee have considered the Final Stage 1 Report and Final Work Program and have made recommendations to determine the direction of Halton's Solid Waste Management System for the next 20 years. Alternatives considered included an Energy from Waste System, a Resource Recovery System, an Export System and a Landfill System.

The Solid Waste Management Committee recommendations will be considered at a special meeting of the Planning and Public Works Committee on June 15, 1983 at 7:00 P.M.

The Planning and Public Works Committee recommendations will then be considered by Council on Wednesday, June 22, 1983 at 1:30 P.M.

Interested residents of Halton are invited to attend these meetings. If you wish to be a delegation at any of the meetings, please make arrangements with the Regional Clerk.
