

## Over 175 at special service

Over 175 people attended the Coningsby Memorial Service at Union Cemetery of the Fifth Line of Erin Township. Howard Graham was the chairman for the day with Rev. R. Jenkins from Churchill Community Church giving an address. Rev. Jenkins told the people at the outdoor service that in cemeteries, "the kernel of what they are buried here, but the essence of what they were lives on." He also noted "it is not necessary to preserve something physically for it to live on." He enjoys walking through a strange cemetery and looking at the names and dates on the tombstones. He has learned so much of the history of the community in that way. The Root family headed by uncle and father Bennett provided the musical selections for the day.

Members of the Root family played their instruments at the Coningsby Memorial Service Sunday.

ENVIRONMENTAL ASSESSMENT  
LANDFILL COMPONENT OF SOLID WASTE MANAGEMENT

## YOU ARE INVITED TO A MEETING TO DISCUSS THE PROCESS BEING USED TO IDENTIFY LANDFILL SITES IN HALTON

The consultants preparing the Regional Municipality of Halton's Landfill Component Environmental Assessment have completed the first stage of their study which evaluated alternative methods for disposing of Halton's Solid Waste. It was determined that the disposal system should be resource recovery based with one component being landfill.

At this stage in the study, the consultants will begin the Site Selection Process to identify potential Landfill Sites in Halton. A number of potential areas will be identified by the Fall and after further detailed studies, a preferred site or sites will be selected.

The search for potential landfill areas involves an initial screening process to identify areas of Halton that are environmentally, socially and economically acceptable. The screening process that the consultants will use and the environmental, social, and economic factors that will be used to select areas, will be available for public review. Residents of Halton that are interested in how the Region's future landfill site(s) will be identified are invited to an Information Centre to discuss the factors to be used in the screening process with the consultants and Region of Halton staff.

Location:

Date: Wednesday, July 20, 1983
