

Out doors

by Lorne Fletcher

The four day hunt for deer is past with few problems, no reports of injuries suffered by hunters, hikers or homeowners.

There was one incident I heard of on the Fifth Line of Halton Hills. The farmer was out for the morning and much to his chagrin some over-zealous anti-hunt person had plastered the whole concession, including this farmer's land, with "No Johnson (hunting) signs". Well it takes all kinds. It should be remembered too that trespassing is the same for the anti-hunt people as it is for hunters.

The recent spread in the paper titled No Hunting has raised the hackles of more farmers than hunters. Suddenly the landowners are conscious that there is a movement afoot to take away one more basic freedom. It's the right to have or use old Betsy, the right to go out to the back forty and collect a rabbit for Sunday dinner or rid oneself of a few more groundhogs, coyotes, etc.

When some organization or unknown person pays for a spread of totally, in my opinion, unfounded statistics without any straightforward names involved a good many Canadians will start to wonder just where the money originates. There's an old adage if you tell a lie often enough people will start to believe it.

The group that I had the pleasure of hunting with in the North Halton area had much better success with the deer than last year. Also there was the added

bonus of taking two large wolves, one an exceptionally large male with very light colored hair, almost the color of a dark Red Fox.

Six brushwolves were seen on the four day hunt. This is surprising for an area of such density, possibly the Ministry of Natural Resources should be approached to help organize a wolf drive later this winter.

Fishing for Rainbows is definitely on the downside this fall in Georgian Bay area. There have been no exceptional catches reported. The cold weather will thin out the competition and make for better success in the coming weeks.

For those who have put away the old fishing rod now is the time to look after repairs on fish huts, sleighs etc. It is much easier to do it now than in January when the snow is flying.

Anyone building a new ice hut should remember to register it with the M.N.R. in the area where you'll be fishing. A large number on your hut makes for much cleaner situation, no garbage on the ice. Also it will mean fewer huts left on the ice to become navigational hazards in the spring. Have a good day.

What are the main benefits of Soft Water?

- Soft water permits you to use mild soaps.
- Soft water rinses thoroughly.
- Soft water is a valuable aid to beauty.
- Soft water does not form a scale in the boiler or hot water pipes and saves costly plumbing repairs.
- Soft water helps you keep the house cleaner quicker and more easily.
