

DOES YOUR FUEL OIL DEALER MEASURE UP?

It's a good question to ask yourself these days when oil dealers are competing for your business - and offering discounts and give-aways.

Our prices are competitive. But a first-class oil dealer should offer a lot more than just filling your tank.

- At Boehmers we offer a FREE energy audit of your home - a complete top-to-bottom survey of your house with recommendations for conserving heat. Our recommendations, given in over 3,000 energy audits to date, have saved our customers literally thousands of dollars.

- At Boehmers you'll get a FREE combustion efficiency test with every preventive maintenance call.
- At Boehmers you have a choice of furnace insurance plans - including our famous Furnace Replacement Plan. (If we can't fix your oil furnace, we'll GIVE you a new oil furnace at no cost. All you pay for is the installation charge).

All these and many more services from Boehmers.

We believe an oil dealer should do more than just fill your tank.
