**Phone books out this month**

Lighted candles, the universal symbol of a birthday, dominate the front and back cover of the new Halton and Peel, Dufferin County and surrounding area telephone directory, in recognition of Ontario's Bicentennial, being celebrated in 1984.

The upper left logo says "Celebrating Together", 1784 Ontario 1984.

Some 3,700 copies of the new directory will be delivered in the Acton exchange, beginning January 24 and ending February 22.

W. C. Salmon, local Bell Canada manager, said the introductory pages of the phone book have been redesigned, giving the public a fast and easy reference for all kinds of telephone information.

Drawings, bold-face headings, white space and symbols are used to make each section of information stand out.

"We expect people will find it easier to locate and read information in the introductory section because of the new format," said Salmon.

"One part deals with customer service, another with finding numbers, local and long distance calling and a final one with the federal rules which govern Bell."

The "Emergency Calls" page has been moved from the inside front cover to page one of the introductory pages. The police, fire and ambulance numbers are listed for the various municipalities.

Bell is continuing its policy of delivering one directory per household. Anyone who does not receive a copy should call the local Bell business office after the delivery period ends February 22.

**Clergy Comment**

by Rev. Jean Stairs

I've never bought a lottery ticket. Once, during my university days, I was given a Wintario ticket with the comment that if I won anything I'd better give half to the church. Needless to say, fate was not destined to bring together chance and luck for me.

Lotto 649 has left me flabbergasted. Offering a \$13.8 million dollar prize, this lottery produced more excitement and frenzy than any draw in Canadian history.

Everywhere I went last week, Lotto 649 was the topic of conversation. People stood in long lines to purchase their chance at a "dream-come-true". Folks conversed about the odds and shared dark and bright fantasies of winning.

As for me, I listened, watched and experienced sadness. It's not that I'm totally against lotteries. I'm able to acknowledge the sizeable benefits generated for research, development, restoration projects, groups and charities. What disappoints me, however, is the fever pitch created that subtly suggests success is rooted in instant financial gain.

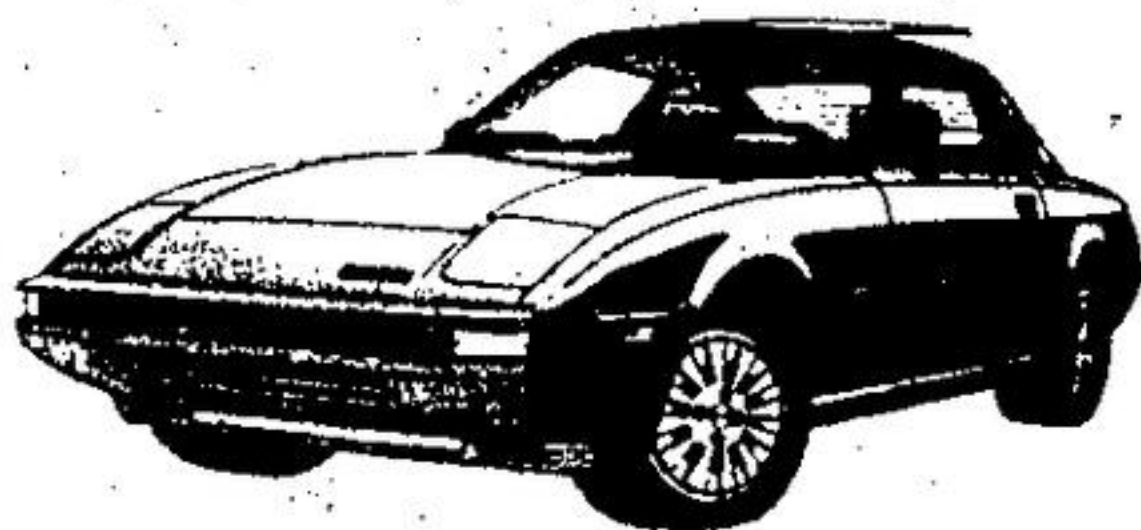

To long for the spectacular "lifestyle-changing" amount reveals a reluctance to discover fulfillment in the "everyday-style" of life. Beauty and satisfaction can be captured in the simplicity of striving for betterment, in the conflictual struggle of life, and in experiencing a spirit freed from the monetary noose.

What was it that someone once said? Oh yes, I remember: "For where your treasure is, there will your heart be also."

**THE LEGEND IMPROVED.**  
**1984 MAZDA RX-7 GSL-SE.**

The legend began in the spring of '78. Today, the world's only rotary powered sports car is recognized as a benchmark for the breed. For 1984, RX-7 legend grows. Read why.

A larger, refined rotary engine produced 35% more horsepower and 25% more torque with a mere 10% in increased displacement. A sophisticated 6-port variable intake fuel induction system, with computer controlled fuel injection, gives excellent response and acceleration with maximum fuel efficiency. 0 to 80 km in 5.6 seconds. But please don't frighten the competition.

Extra-large alloy wheels, low profile Pirelli tires and a beefed-up suspension system complement the GSL-SE's new performance.

Notice the new high-tech command post before you and the softgrip steering wheel. Now feel the softgrip shifter. It's smoother, quicker!

Then listen to the new component-type, concert hall sound system. All... comfortable to the mind as well as the body", said Road and Track.

Take the RX-7 for a run. You'll discover a harmony as natural as breathing. The legend improved.
