Pick firm for tourism study

Despite charges that Halton region is playing "fairy godmother" to outside consultants who conduct its studies, council has hired another firm to investigate regional tourism at a cost of \$60,000.

Peter Barnard Associates was chosen last week from among seven firms bidding on the chance to conduct Halton's much-touted tourism study. One of three candidates offering "strong interviews", the Barnard firm won council's favor by displaying "strong sensitivity to the tourism issue in Halton".

Burlington Councillor Joan Little was unimpressed.
