

# Outdoors

by Lorne Fletcher

A great upsurge in outdoor sports such as hunting and fishing, especially where you can get in some good field work without competing with anyone else, is much in evidence this fall.

With the interest shown in the gun and hunting show on the past weekend plenty of teenagers are registering with the Ministry of Natural Resources for courses in safe and sportsmanlike gun handling.

These courses in both field and written work are tough as well they should be and plenty of neophytes have to go around more than once to obtain that coveted licence.

A good many hunters are patiently waiting to see if they will be picked in the

draw for the coming four day hunt. Approximately 300 tickets will be issued for the North-Halton area plus lesser numbers in the Cambridge area south of the 401.

Personally I believe that the deer population in the North Halton area is coming down to a more balanced number with less road kills this past summer. The word is also out that the local deer poachers moved their operations out of the Halton area up to Wellington County where the deer are not so easily spooked. We can get along well without them anyway.

For those that like to stream fish for big Chinooks and Rainbow there are reports of tight lines in the Credit River and Bronte Creek in the lower reaches. Good fishing is also reported in the Nottawasaga and at Thornbury.

A recent survey of the Owen Sound harbour, with nets, by the Ministry of Natural Resources revealed plenty of splake just waiting to move in shore.

With no commercial netting allowed this area should support a bumper crop of good fun and good eating. Have a good day.

## Tips from the Golf Doctor

by Terry Miskolci

How often are you faced with a perfect lie. Not often. Most of the time you're faced with a lie where the ball may be above or below your feet or it's uphill or downhill.

Today I'll be discussing a simple method of handling these lies without altering your grip, stance or aim. The only change made is with the angle of the club face. Now let's take a look at the various uneven lie situations.

**The Side Hill Lie**  
Let us assume you are a five iron distance from the green. Now, go through your routine of address position with one exception—clubface position. If the ball is below your feet you drop down to a six iron and slightly close the face of the golf club. The opposite is true when the ball is placed above your feet. You now go to a 4-iron and open the face of the golf club. Either situation will cut down the exaggerated movement of the golf ball.

**Uphill, downhill lie**  
Again assume you are a five iron distance from the green. And again assume your normal address position and again with one exception—club selection. If the ball is positioned on an uphill lie go to a 4 iron; the opposite is true for a downhill lie. You now go from a five iron to a six iron. The reason for the changes taken are quite simple. An uphill lie has already increased the angle of the clubface, therefore making a five iron a six iron loft, therefore you go to the four iron. And of course the opposite is true. Take time to practice these shots, they'll save you a "bundle" of shots during a round of golf.

Next week I'll discuss an "around the clock method" for pitch shots to the green.

## Goy equals Milton 0-0

In Peel Halton Ladies soccer recently, the Goy Cartage Rovers matched Milton 0-0 in an exciting match.

Both squad put on a stellar display of soccer skills with the Acton squad led by the indomitable play of Elke Zeissig. Also instrumental in preserving the deadlock for Acton was Carol Bousfield.

During the Ciderfest activities a composite team containing team members of the Goy Cartage Rovers and O'Brien's

Meats beat a squad of boys chosen from the Acton Boys' Pee wee division. Pegging goals for the ladies were Heather Thatcher and Lisa Corradetti.

## Madels molest Dan's 3-2

The Acton Atom Madels came up with a win and a loss in recent soccer action.

Aug. 23 a strong Acton squad overcame a tough Dan Auto Body 3-2 in a cliffhanger of a match.

Brandy Strelec started off the Acton scoring drive with two goals in the opening half of the match and then Dan's came back strong in the second half to equalize the game with goals from Andrea De Francesco and Lisa Smith.

Late in the second half Diana Frehs netted the winning goal for Acton.

Unfortunately Aug. 30, the Madels' opposition weren't going to give up and the Acton squad went down to a 4-2 defeat.

Both teams, however, gave a super effort

with all Milton goals recorded by Stephanie Aiken and Marsha Van Cedar.

Pegging goals for Acton were Brandy Strelec and Jodi Coleman.

Ann Marie Kinnon, Diana Frehs and Milka Cavic gave special effort in the game playing very well on their half back positions.

Special mention must also go to Emma Guson who was outstanding in goal for Milton.

The Madels are now equal to Realty World in the points race for league champion each with 21. Realty World has one game left with Pineview and should Realty take a loss then the Madels and Realty will battle for the league's top honors.

## Gems jolt Milton 3-1

Thanks to terrific goaltending, the Acton J and T Gems recorded a 3-1 win over Milton Aug. 30.

Belinda Olsanka and Shelagh Bailey were outstanding in goal thwarting many Milton attacks and the fantastic checking of Joanne Lewis helped the local squad claim the win.

Acton goal scorers were Marla McLeod with a pair and Catherine McKinnon added a single marker.

**Household Hints**  
from Prudence McNeally  
How to keep salad from getting soggy... place a paper napkin in the bottom of the bowl before you put in the greens. Moisture will drain off under the saucer.  
Don't toss out old powder... wash and dry them to use for polishing silver- or furniture.  
Put extra detergent... stains and dirty clothes. Use more soap. Keep a small amount of bleach in the laundry. Use it as a detergent and bleach away the stains.
