

# Jiu-Jitsu Expert Plans Teaching Self-Defence

The ancient art of self defence Jiu-Jitsu will soon be taught in Georgetown, by Ronald Forrester, R. R. 1, Norval, the first president of Canadian Jiu-Jitsu Association, and holder of a third degree Black Belt in Jiu-Jitsu.

This is a high level in the world of jiu-jitsu since the or-

der of achievement goes like this — white, yellow, orange, green, blue, brown, then 1st degree black up to 10th degree. He learned the skill at the Frank Hatashita Judo Club in Toronto, whose owner holds the 6th degree black belt, the highest in Canada.

**FATHER OF KARATE**  
Jiu-Jitsu is the father of karate and aikido, later forms of self-defence.

The Association, created in October through the efforts of Mr. Forrester and his colleagues, will unify and perpetuate the art in Canada, and will control curriculum and grading.

He is the chief instructor of Jiu-Jitsu at clubs in Oakville, Kelowna and Toronto, and hopes to start the Georgetown club early this year. The sport is equally suitable for men and women, said Mr. Forrester.

He has lived near Norval for three years, and is employed at Orenda.

## KID HOCKEY

JR. A — AMERICAN — NHL — SENIOR  
by Bud James

With the holiday season over players and coaches will be able to concentrate on hockey. Saturday January 3 all goalies were notified that they must wear helmets and masks as this rule was laid down by OMHA and Saturday Morning Hockey is governed by OMHA.

One player had to sit out Saturday because he never had skate guards on his skates so players check your skates before your next game.

Teams are in their round robin and if the first two games are any indication the rest of the series could provide some upsets.

The Four Town Tournament will be held in Georgetown this year March 7, 1970. Milton who have withdrawn will be replaced by Orangeville. Managers and coaches will be approached to handle some duties for that day.

**Standings up to Dec. 20**

## Camp Borden Joins Twelve Seeking Midget Honours

Twelve teams will go after tournament glory when the annual Georgetown Midget Hockey Tournament faces off three weeks from today in Georgetown Memorial Arena.

The tourney is an annual project of the Georgetown Minor Hockey Support Group which operates five local teams in Tri-County's Novice, PeeWee, Bantam, Midget and Juvenile leagues.

The three day eliminations start Thursday January 29 and conclude Saturday night.

Taking part will be teams from Detroit, Brampton, Ajax, Milton, Oakville, Acton, Guelph Burlington, Hespeler, Chinguacousy, Camp Borden and Georgetown.

For Camp Borden it will be their first shot at win-

ning the Georgetown tourney.

Individual performance will also be considered this year with a new trophy, the Bill Chapman Memorial Trophy, going to the tournament player judged most valuable to his team.

The trophy was named for the former Georgetown Midget team manager who died last year. Georgetown is currently managed by Wayne Chapman and coached by Ron Dixon.

Thursday night's schedule will see three of the six first round games played. The remaining first game games will be played Friday night, with second and third round games, and consolation and grand championship finals squeezed into Saturday's 7 a.m. to 9 p.m. time slot.

### SNOWMOBILE LICENSES SRO

There are no snowmobile licenses to be had in Georgetown, Acton, Guelph, Brampton, Oakville or Toronto due to a temporary plate shortage.

National Final will be held at the Kamloops Curling Club, Kamloops, B.C., February 23-27, 1970.

### DROP MINIMUM AGE TO 50 FOR SEAGRAM STONE

The Sixth Annual National Seniors Curling Championship for The Seagram Stone has introduced a lower age limit for contestants. The new limit is now 50 years over and with a total team aggregate of 210 years by January 1, 1970.

Since its inauguration in 1964, under the auspices of The Canadian Curling Association, the Championship for The Seagram Stone has become a major highlight of the curling season.

The southern Ontario Provincial final will be held at the Dixie Curling Club, Cooksville, Ontario, January 27-29, 1970 and the McIntyre Curling Club, Timmins, Ontario will host the northern Ontario Provincial final February 13-15, 1970. The

### Skating, Skiing, George's Childhood Christmas Day

The weather hasn't let up much since October 21st. That was the day we decided to place the storm windows on the house. It snowed that night. A short time later it rained for several days.

The wet weather spoiled the deer hunting in many areas. To quote the Department of Lands and Forests, "The deer wintered very well the previous winter. At the time of the hunt the deer were still widely scattered over their summer range."

"In several places, hunter success declined only slightly from the previous year. There is good reason to believe that the hunting will be very good next year."

**WHITE CHRISTMAS**

It really never is a Christmas without the snow. This year it was ideal for skiers, and snow machines etc. Ski resort owners must have been pleased to see the crowds.

Most people are glad when Christmas and New Year's is over. Prior to this there are many things to do, cards to send, cleaning, presents to buy, decorations to put up, especially the outside lights and of course the tree inside.

On Maple Avenue near the caution lights some of the outdoor decorations are a picture to look at.

Yes, Christmas is a very happy time for a lot of people and a very sad one for others. We stop and think of our loved ones who have passed away. It's a perfect time to pay our respects. Most everyone has to admit that some receive so much and others receive so little.

Of course everything has its humorous side. I remember when we were very young our

Christmas. Dreat the luck anyway.

**'70 CALENDARS**  
Thank you Charlie Davies for your wonderful calendars. They were very much appreciated. They were up on January 1st, 1970.

**BENEATH THE ICE WHITEFISH ARE WAITING**

Fishing for Whitefish and Cisco through the ice is a popular pastime in southern Ontario. Lake Simcoe, alone, has approximately 5,000 fishing huts each winter and provides for untold hours of winter enjoyment.

Over the years ice fishermen on Lake Simcoe have become very adept at catching both whitefish and cisco. Ice fishing is not a hit and miss proposition and the most successful fishermen make plans that ensure the best possible chance of a catch.

Here are the main reasons why Lake Simcoe winter fishermen are so successful according to A. Holder and P. Marshall who worked on Lake Simcoe fish management with the Department of Lands and Forests.

**FISH HUT** — For those who wish to consider the sport we recommend a fish hut. While there are commercial models available, an inexpensive hut can be readily constructed from light materials and hauled out onto the lake by hand or snow machine. When constructing the hut, weight is a factor to be considered. Space for a small stove must also be considered and the shack must have holes cut in the floors through which the lines are suspended.

**LOCATION** — Most local lakes are abundantly stocked with whitefish. The secret is in knowing where to find the winter haunts of this species. Whitefish are bottom feeders and may be taken in depths of up to 100 feet. Few if any local lakes are anywhere close to this depth so the trick is knowing the type of bottom. The fish are generally found over sand or gravel shoals at varying depths. In any case, the bottom should be firm, not mucky and in perhaps eight to twenty feet of water.

**PREBAITING** — Is probably the most important consideration in winter fishing for whitefish. Immediately ice is safe to travel on, fishermen should commence prebaiting their fishing hole using up to several

11-quart baskets for bait. Lake Simcoe fishermen preserved bait in November by salting minnows. During winter months, anglers are restricted to a possession limit of 40 lbs. of bait fish. Other foods are used to prebait a hole and these include pre-softened grains and boiled macaroni. Holes should be prebaited up to five days prior to fishing and the purpose is to allow fish to concentrate in the area.

Holes should be prebaited intermittently, never immediately before commencing to fish. Most successful anglers prebait once or twice each week using a pint of bait. This keeps fish around the hole.

**FISHING TECHNIQUE**

Preferred baits are small, live or preserved minnows. Some success is achieved using special small lures of the jig-type. The gear consists of a tip-up and spreader combination, both of which are readily available at sporting goods or can easily be made. Purpose of the spreader is to allow the minnow bait to be placed on or near the bottom. Whitefish and cisco have very soft, tender mouths and extreme care must be taken in setting the hook and bringing the fish to the surface.

Sensitive tip-ups tell the fishermen at a glance when fish take the bait. Some fishermen insert an elastic band between the spreader and fish line which takes up the sudden and hard pull as the hook is set in nibbling fish's mouth.

**MANY ADVANTAGES**

The advantages of winter fishing for whitefish are numerous: Fish flesh is firm. Many leisure hours can be spent comfortably seated in a heated fish hut (many take along a portable TV or radio to help spend the time).

The above article was received from the Department of Lands and Forests.

Perhaps in the future I will tell of some of my experiences on Lake Simcoe.

The late Bob Fort of Jackson's Point said to me one time, George I'm not afraid of Lake Simcoe, but I have a lot of respect for it. Those words I will never forget.

**TYKE HOCKEY**  
BY DOREEN LONG

On Friday, January 2nd, 1970 our annual skating party was enjoyed by many though we did miss a few smiling faces. This I guess was to be expected since it was a rather long holiday weekend for many. Hot dogs and pop were the order of the day and, judging from the eager recipients and the quick way they seemed to disappear almost as enjoyable as Christmas turkey.

It was good fun as those who attended I'm sure will agree. Our party was topped off by an exciting exhibition game between the Georgetown Flyers and Bramalea. A strong Bramalea attack netted two goals in the first period that caught the locals off guard. (Goals by Colin Winter and C. King.)

The Flyers came on strong in the 2nd period but dropped behind once more as Ian Young tallied for the visitors. Consistent skating and close checking finally paid off and Ian Reeks notched one for the Flyers. It was a strong finish for the locals but try as they did they just couldn't come closer. Final score 3-1 Bramalea.

With a few more practices and possible exhibition games, our boys should come through with a few wins before tournaments start.

Games for Friday January 9, 1970.  
5:00 p.m. Detroit vs. Chicago  
5:40 — Toronto vs. Boston  
6:20 — Montreal vs. New York

I'm sure Santa was good to many little fellows and brought some nice new hockey equipment. PLEASE folks, mark it all clearly with junior's name and phone number. It helps tremendously when things get lost and misplaced. From all of us involved in Tykes, Happy New Year. See you at the arena.

passed away about two years ago at the age of 91.

That's all for this week so safe journey, good hunting, enjoy the outdoors and tight lines
