Teachers at Kennedy school had a kitchen shower and Miss Chris Pellegrini entertained at a miscellaneous shower. She received a gift of crystal from the Kennedy school staff and a toaster from 8th Georgetown Cubs and group committee. HEALTH COLUMN

Nagging Backaches

Few ailments can be as aggravating, not to mention painful, as a constant nagging backache.

Backache may result from a sudden movement, an accident, a cold or some completely unnoticed happening.

Whatever the contributing factor, the direct cause of the ache and pain is easily traced to a pinched nerve or impinged nerve. Once the pressure or 'pinch' is removed, the pain departs and that normal healthy glow returns.

Home remedies, sedatives and similar treatments may bring temporary relief, but it remains for the chiropractor to track . . . through scientific procedures . . . the cause of the persistent pain and . . . through gentle adjustments . . . remove the cause and bring quick, long-lasting, effective relief.

The chiropractor, through training and experience, is thoroughly familiar with the spinal column and the body. With skillful hands, the chiropractor aligns the spine, removes the irritating pressure and replaces exasperating pain with glowing health and well-being.
