

Under the Winter Blanket — Yuk!!

LITTER PICKERS ON THE JOB

Herman Verria and Augustus Sales of the town works staff don't have to do much searching in their litter hunt as the wrappers and tissues seem to be everywhere. The Herald camera found the litter crew picking their way along the boulevard on Hwy. 7 opposite Dominion Seed House as the town workmen took advantage of the break in the weather to remove some of the eye sores that lie beneath the winter's vanishing blanket.

HOT SPOT

The meeting of Thursday, March 12th centred mainly around the "TO HAVE OR NOT TO HAVE" aspects of the new Clerk Administrator, Town Manager, Chief Administrative Officer; call him what you will. In the beginning, the APPARENT consensus of opinion was that to start a man as the "TOP DOG" was something to be SHIED away from. Councillor Morrow then advanced the idea that the present personnel be upgraded to meet the requirements of the town.

Council then muddled through various stages of succumbing back and forth between "TO HAVE" and "NOT TO HAVE."

With the statement "WE ARE GOING TO HIRE a clerk administrator, town manager, chief administrative officer," councillor Speight finally established the mood of the council, which seemed to be the more intelligent one in light of the RATHER COSTLY but very adept and pertinent report done by the very talented firm of Stevenson and Kellogg.

Council then settled down to the inevitable political in-fighting with Councillor Hyde maintaining that they initiate the search for THE NEW MAN. While Councillors Morrow, Smith and Dennison OPPOSED the idea of council searching for the man to fill the position with councillor Dennison's remark, "I can just hear them asking him 'can you write up a by-law?', articulating the feeling of this group.

Although much was accomplished at this meeting the CONTROVERSY over the Stevens Kellogg report IS BY NO MEANS OVER.

Target Figure Topped Ability Fund Gets \$2870

The Ability Fund canvass in Georgetown and district topped the target figure by \$170.

Fund publicity chairman for this area, Mrs. Donna Robbins, said this week the campaign drew in \$2,870. The campaign committee headed by Mrs. Mary Cooper had set its sights on \$2,700.

Mrs. Robbins, speaking for the local officials, said they appreciate the efforts of the Georgetown and district money donors as well as those of the canvassers who gave up their time and the warm comforts of home to trudge through the

winter evening. Their dedication spelled success.

NEW IMAGE

Local teens made a big contribution in staging and taking part in chariot races with sponsors proceeds added to the Ability Fund. Their entry in the Santa Claus parade was a promotional boost that was also effective.

Once known as the March of Dimes, the Rehabilitation Foundation for the Disabled changed its name to conform to its new role. The Foundation has altered its old polio fighting image and now stresses the ab-

ilities of the disabled they treat rather than their disabilities.

RECEIVE HELP

"Many in Georgetown are receiving help from the Ability Fund, but we feel there may be a few who do not know of the facilities at their disposal only for the asking," Mrs. Robbins told The Herald.

Anyone who feels they or a friend may benefit through the Foundation should call Mrs. Cooper at 877-4478.

What happens May 8-9? It's Kinsmen Girls' Softball League registration day for 240 local girls.
