

Barbara Brotherton Entrant Toronto-Nassau Angel Derby

Some of the 65 planes entered in the Angel Derby at the Island Airport starting point.

Pilot Barbara Brotherton, right, of R. R. 1, Limehouse, and her co-pilot, Elaine Magee.

Barbara Brotherton, local flying femme, took off Monday morning from Island Airport on the first leg of the Angel Derby, an air race open only to women which ended in Nassau yesterday. At press time, results were not available.

Barb and her co-pilot, Elaine Magee, flew a Bellanca super Viking, provided by Percy Schneider of Milverton, sole Canadian distributor for the Bellanca aircraft. Number 58 identified them as 58th to take off in the 65 plane line-up of women pilots leaving at one minute intervals. Five of the planes were Canadian entries, the first Canadian entries in ten years.

PRE-RACE DUTIES

Pre-race duties such as wiping the dew off the plane, checking the gas tanks, and most important checking their charts and course, took up most of the time, Barb and Elaine, waited for the signal to taxi up to the starting runway.

The girls flew first to Pontiac, Michigan, then Cincinnati, Ohio, Huntsville, Alabama, Albany, Georgia, Orlando, Florida, Fort Lauderdale, Florida, then Nassau.

The first prize is \$2,000 and the second \$1,200. The first to arrive is not necessarily the winner since it's a handicap race, with the plane flying the fastest rate over its own power speed, being declared the winner. Despite the prize it's the honour that counts with the women.

DRESSED ALIKE

The "two belles in the Bellanca" dressed alike throughout the flight and welcoming celebrations in Nassau, making them the most easily identifiable two-some in the race.

The Angel Derby is an annual affair sponsored by the

Florida Women Pilots' Association, and was started in 1949. This is the first time Toronto has been selected as the starting point.

The Ninety-Nines, the name of the Women Pilots Association, were founded in 1929, with 98 Americans and Canadians. Some of the original members are still active. The late Amelia Earhart was its president. Now there are 5,000 members, with the Canadian Chapter being formed in 1966. Mrs. Brotherton is chairman of the 1st Canadian Chapter.

Dentist in Maritimes Dr. Arthur Wilson Dies

Dr. Arthur H. Wilson, a well known New Glasgow, N. S. dentist, died suddenly at his dental office on Friday, April 24. He was seventy-two and had suffered a previous heart attack.

Dr. Wilson was born at Ashgrove, son of the late William George Wilson and Adeline Hunter. He attended Ashgrove school, Georgetown High School and University of Toronto Dental College.

He went to Pictou County, following service in the Canadian Dental Corps throughout World War II. He had practiced before in Woodstock, Ont., where he had served on the surgical staff of the Ontario Hospital there. Dr. Wilson had served in World War I as a young man, returning to take up dentistry.

He was a charter member of the Westville, N. S. Rotary Club and later a member of the New Glasgow Club, serving as

Be Glad You Can!

Have you ever thought how frustrating it would be to be blind?

Keeping house and caring for a family, for instance, presents all sorts of problems for a blind person. Cooking, cleaning, and marketing, each have built-in booby traps. Suitable employment is often impossible to find.

Travelling alone without sight can be a very terrifying experience.

Reading presents a major problem for the newly blinded.

You can help the Canadian National Institute for the Blind provide services by giving generously to our appeal being sponsored by Lions Club of Georgetown. Contributions can be taken or mailed to Can. Imperial Bank of Commerce, Georgetown Market Branch.

Our Renault 16TS: There are slower airplanes.

A Renault 16TS is like no other performance car within \$2,000 of its price. It not only goes like the devil, it is incredibly comfortable. A rare thing today. A thoughtful machine. The huge Girling disc brakes are power-assisted and squeeze 105 miles an hour to 0 in seconds. The hemi-head weber-carbed engine is incredibly smooth, as smooth as the action of the 16TS's electric windows. No one has ever brought out a performance car like the 16TS before.

The foam bucket seats adjust 7 ways and make up into beds. The back seat is removable, and the vertically opening rear door makes the 16TS the rarest of machines, a sports-wagon. Everything, from electric tach, to padded wheel, rear window defroster and posh carpeting is standard on the Renault 16TS. A very impressive package. Fast outside. Soft inside. Test fly one today at an enthusiastic Renault dealer's.
