### DIFFERENCE IN TERMINOLOGY

The postal department called it a lay-off, but members of the Letter Carriers Union had a different terminology for Friday's lack of mail delivery in Georgetown. Terry Christie, left and Jack Peard carry signs saying "Locked Out" as they picket in front of the post office Friday. The postal department dismissed carriers that day, claiming there was nothing for them to do following a strike on Thursday.

## Layoff? Lockout? To Public It's No Mail

## Expect Township's Official Plan Ready by Month-End

The Esquesing Township Council, Planning Board and Committee of Adjustment met in special session on June 30, 1970, with its Planning Consultant to review the progress being made on the preparation of the Official Plan and Zoning

Among the items discussed were: recent land development in Esquesing and the effect of the recently released "Turonto Centred-Region Plan" on the future growth and development of the Township.

#### WILL TAPER OFF

The Township was advised by M. M. Dillon Limited, its planning consultants that while some growth could be expected, it would not be of the same magnitude as had been experienced over the past years. The Council and Planning Board were told that work on the Official Plan was progressing to the point where a preliminary Outline of the Plan could be expected towards the end of July.
