NORTH HALTON CURLING NEWS

Thais Brown Skips Rink to Mackenzie Trophy Win

"Scotland's ain sport" the roaring game of curling has been popular there for three centuries at least. At first very crude implements were used. Random boulders out of the bed of a stream perhaps, which were bored through to let in the thumb of the player.

In the course of years, the rough blocks were succeeded by a beautifully rounded and polished object of whinstone or granite, supplied with a convenient handle. For the most part granite stones which have been quarried are used and these are named from the places whence they came: Ailsa Craig, Burnocks and Crawfordjohns being some of the best known varieties.

Wherever Scotsman have journeyed they have taken their game. In Canada curling has been known since 1807 and today is played from the Pacific to the Atlantic. It was introduced to the U.S. in the early 40's and some twenty years later the Grand National Curling Club was formed.

Perhaps you have watched a game — The rink is marked out on the ice, two circles at each end of the rink called the "house." The rink measures 120 feet from "T" to "T" and 14 ft. wide. Each side has four players and each plays two stones. The "lead" or first player takes his post in the back or ("foot-hold") at one end of the rink and curls his stone as near to the circle as he can.

Then the lead of the other side plays and instructed by his skip will either try to drive away the first stone if well placed or get a better position for himself. When the skip's turn comes he is directed by his third player (vice captain.) When all sixteen stones have been thrown and counted this completes an end. The players proceed to the other end and curl the stones to the other circle or "house" as we mentioned.

The sweeping is highly important — it is for the skip to say whether a stone should be swept or not. The players other than the one playing his stone should be always ready to sweep whenever directed to do so and must keep beside or slightly in front of the stone until it reaches the house.

They must not touch a moving stone with their brooms. If they do the stone is considered 'burnt' and removed from play immediately.

Curling can be a highly competitive game, a game of fun and fellowship, good exercise, a way to meet new people. Make arrangements with a member and come on out and watch a game in progress.

BOWLING TIPS

This is the first in a series of tips on how to improve your bowling technique. First, learn the etiquette of the game. Two rules will be printed each week. 1. Stay back of the foul line. 2. When a bowler is ready to start his delivery, do not walk in front of him to pick up your ball.

BOWLING TERMS

Each week a bowling term and its definition will be printed, for your benefit. It is suggested that you make a glossary of them.

ACES UP — When both corner 2 pins remain standing, after the first ball is delivered.

BOB SOMERVILLE Tyke of the Week

Thursday, November 19th in a real thriller, Pittsburgh squeaked past St. Louis by a 1-0 score in their first meeting this season. The second game of the evening was a 1-1 tie, Los Angeles and Minnesota. Both teams played well as excited fans each hoped their team would emerge the winner.

On Friday, Nov. 20, Rangers and Montreal Canadiens gave their fans some excitement as they played to a 1-1 tie.

In the following game Boston played extremely well but were unable to hold off the strong Toronto attack and Leafs remained unbeaten, claiming this one by a score of 1-0.

Chicago and Detroit kept the excitement high as they battled away, Chicago with a one goal lead. A last minute goal by Detroit, tied the score and it was 1-1 for the second time this evening. This game was a very fast and well played effort for both teams.

PLAYER OF THE WEEK

On Thursday in a very exciting game that featured lots of skating, David Noron of Los Angeles displayed great determination in checking and puck carrying. David is one of our smaller boys but he didn't let this bother him as he was constantly in the middle of the action.

On Friday it was Robert Somerville of Boston who captured our vote for this week. Robert had a very busy night in goal as he faced a strong Tor-

We've done our thing. Now you can do yours.

Our thing has always been to make the Bug solid, dependable and practical. But lately, some people have been taking our thing, and doing their own. (like adding cute flowers and kinky paint jobs.) Frankly, we're delighted. And what's more, we'd like to

offer a few suggestions: like snazzy mag wheels, chrome stoneguards, driving lights, or our racy racing stripes. (You can get them at any VW dealer's.) The beauty of it all is, that now you can take an old Beetle and put it back in the groove, or do some far out

things to a new one. We've always built the Volkswagen tough enough to survive anything anybody or any place could dish out. Now it looks like it will even survive a whole new generation.
