> Bridge Has Cracks So Set Five Ton Load Limit

Cracks up to four feet in length have appeared in the east abutment of the Terra Cotta bridge, and county council's road committee will take immediate action to prohibit vehicles over five tons from crossing the span.

The bridge, over the Credit River on County Road 9, is to be posted with warning signs immediately after the passage of the necessary bylaw by county council this week.

The county's road committee meeting last week, heard engineer Robert Knight voice his concern.

"A deep crack has appeared on the bearing area on the east abutment," he said. I ask you to authorize council to pass a bylaw as soon as possible so we can post the bridge."

Conneillor George Gardhouse told the roads committee a gravel pit was in operation in Esquesing Twp, and trucks of up to 50 ton are crossing the bridge now."

"There won't be a bridge there by spring if this traffic continues."

Cr. Gardhouse said there were two alternative routes for the trucks: "The pit is right in the middle of the Bruce Trail. don't know how they got there," he said.

The committee unanimously agreed to present the bylaw to: council authorizing the posting. and also gave instructions to Mr. Knight to start design plans on a new bridge.

BRIDGE CLUB

With 14 tables in play last week at Georgetown duplicate bridge club Tom Warnes and Bill Hamilton stood first among east-west couples and Ron Snow and Walter Biehn headed the north-south group.

Other north-south results -2nd, Mr. and Mrs. Art Kwei; 3rd Ron Dawson and Ron Glbson; 4th Joe Volasko and Harry Ar-

Elast-West: 2nd Mrs. Ted Lawrence and George Elienton; 3rd Mr. and Mrs. Frank Hampshire; 4th, Margery Mackenzie. Olive Logan.
