POLLUTION AND TREES Smoke stacks in several areas are being blamed for the stunted and misshapen Christmas trees. Scientists believe that sulphur dioxide in the fumes kills the tips of some trees and causes others to lose their needles or grows buds in unsightly clusters.

SOMETHING FOR MOM

Christmas is not the time to give Mother a needed appliance, no matter how practical she may be. She would much prefer to receive something frivolous — something she wouldn't ordinarily buy for herself. It need not be expensive, like mink or diamonds. Some utterly extravagant perfume or a frilly housecoat would be nice.
