

### Job Corps Answer For Unemployment

Mount Albert  
Mr. Editor:  
It is time for an Ontario Job Corps.

With government policy creating unemployment and increasing automation many unemployed are out of work through no fault of their own.

There are thousands of worthy projects in Ontario. Parks need upkeep. Roads need maintenance and cleanups. Man-made dustbowls and abandoned farms need reforestation. Community centers and facilities need improvements, while governments waste millions in welfare to keep healthy men idle. This is folly for the taxpayer and unhealthy for those on the dole.

Ontario now makes grants to municipalities, but the situation gets steadily worse.

The province should assume all welfare costs and establish an Ontario job corps. All able-bodied unemployed could be given work at the Provincial minimum wage till economic conditions improve and they can get better paying jobs elsewhere.

The money would be spent on welfare anyway; the taxpayers will get something for their taxes; the jobless can have some work and we can abolish welfare for the able-bodied.

Yours truly,  
John C. McCol
