LIMEHOUSE

A healthy appearing robin chirping in a woodland tree was seen by Mr. Jack Crichton when he was out for a walk on Feb. 7.

The weather and road conditions combined to keep attendance low when the cub scout singing The Queen, Hostesses and brownie mothers held a rummage sale on two successive Saturdays.

Church services have been held each Sunday in spite of bad weather and roads.

Pure vegetable oil is introduced into the breast of the bird from the inside of the cavity. This avoids perforating the skin which allows juices to escape. This self-basting procedure produces a more tender and juicier bird.
