

Council Majority Favours Flood Map in Zone By-law

Council passed a motion Monday stating that Planning Board recommendations regarding flood line mapping be incorporated into the new zoning by-law, presently being prepared by Planning Board.

While the motion finally passed, it was after long and heated debate. Cr. Phil Siddall wanted the flood line and floodlands designated O9, and incorporated into the present, existing zoning by-law. He felt he had no assurance when the new zoning by-law would be ready.

TOO EXPENSIVE
Cr. Hyde was fully in accord with the inclusion in the new zoning by-law, but contended it would be too expensive and too much work to amend the existing by-law to cover it. He stated all residents within 400 feet of either Silver Creek or Black Creek would have to be notified and a public hearing involved. He claimed the town has control over floodlands now, under the existing by-law. Cr. Harry Levy agreed with his viewpoint.

NOT NECESSARY
Mayor Bill Smith maintained no hearing would be necessary to amend the existing by-law, and expressed concern that the new zoning by-law would not be ready as quickly as he would like.

The motion to incorporate the flood line mapping and resultant zoning in the new zoning by-law eventually passed. Shortly after, a motion to incorporate the flood line mapping into existing zoning by-law 57-91 was passed over the opposition of Crs. Hyde, Levy, Sykes, and deputy reeve Art Speight.

THE MOTION
This motion read: "All lands within the municipality which lie within the flood line limits indicated in the report of December 1968, prepared by H. G. Acres, and submitted to the C.V.C.A. be zoned as O3 - conservation, and that the findings of the report and associated flood line mapping be incorporated into the official plan, and that the Planning Board are hereby requested to recommend such amendments to by-law 57-91."

LET'S PLAY BRIDGE

BY BILL COATS

Well last week it finally happened. We have had snow storms, ice storms, rain and fog in the past before but the Acton Bridge Club carried on. However, last week's freezing rain really did it. Only two hardy souls from Acton showed up and no one from out of town even tried to get here. For the first time in eight years, the Acton Bridge Club did not hold a regularly scheduled game.

QUIZ THIS WEEK
Since I have not been playing any rubber bridge and since I missed my weekly duplicate bridge I just don't have a hand to write about so I thought I'd try a quiz instead. This quiz is very basic and covers several points that I stress in my bridge classes.

Your partner opens the bidding one spade and your right hand opponent passes. What do you respond with each of the following hands?

1. S-7 3 H-A K 0 6 4 2 D-7 4 3 2 C-Q
2. S-K J 8 3 H-Q 7 2 D-A 6 4 2 C-Q 3
3. S-J 9 7 3 H-K 5 3 D-8 7 2 C-K 5 3
4. S-Q 10 8 6 3 2 H-Void D-A 9 5 3 2 C-10 7

ANSWERS GIVEN
1. ONE NO TRUMP. In spite of your six card suit headed by the ace and king, you cannot bid two hearts. Any response at the two level shows a minimum of ten points. Your partner may drive to game with only sixteen points and you will probably not make. It is more important to show the value of your hand rather than the best suit in your hand.
2. TWO DIAMONDS. You want to support spades you will at your next opportunity. Your bid cannot be passed. Unfortunately a simple raise shows only 6 to 10 points and a jump raise shows 13 to 15 points.

Since you hold 12 points you must make a temporarily bid.
2. TWO SPADES. Here the choice is between two spades and one no trump. Since your hand is worth only one positive response make it the one that will do your side the most good. You have found a trump suit between the two hands and it's up to you to tell your partner that you can support his spades.
4. FOUR SPADES. This is the one bid that really confuses new bridge players. If a simple raise shows 6 to 10 points, how can a double jump raise show this poor hand? Highly distributional hands cannot be shown scientifically. All you know is that your partner has a spade suit and an opening bid. If your partner has a good hand he will probably make four spades. If your partner has just an average opening bid, the opponents can probably make four hearts. Don't give them a chance to find out. Jump to four spades. Your partner will make it more often than not.

Attend Hydro Convention

The three members of Georgetown hydro commission, Gerald McCallum, John T. Armstrong, and Mayor William R. Smith attended the four day Municipal Electric Association convention at Toronto's Royal York Hotel, February 23 to March 3.

THE GEORGETOWN HERALD
THURSDAY, MARCH 18th, 1971
PAGE 3

The 62nd OMEA meeting was held jointly with the Municipal Electric Utilities convention. Graham Farnell, manager of the local office, attended that convention.

Survey May Add Crafts Courses at Sheridan

Sheridan College is presently conducting a survey on community arts and crafts to determine the need for craft instruction in Halton and Peel counties and what programs should be set up to meet these needs.

Local women experienced in arts and crafts will conduct the survey, set up by the Continuing Education Division at Sheridan and backed by the Youth and Recreation Branch of the Dept. of Education.

SURVEYORS

Mrs. Betty Thomas of Caledon East, wife of Bud Thomas, administrative assistant of Sheridan's School of Design in Mississauga, will survey Halton and Peel, north of Hwy. 401 and Hwy. 7. A former medical technologist, now a housewife and weaver, Mrs. Thomas received her B.A. from Victoria College, University of Toronto.

Mrs. Marion Adams, Streetsville resident, and a member of the Oakville Handweavers and Spinners Guild will survey Peel County, Brampton and south of Hwy. 7. Mrs. Adams is a secretary and a graduate of Brampton District High School.

Mrs. Helen Beswick of Oakville attended Ontario Ladies College in Whitby and Macdonald Institute, Guelph. She is a housewife, member of Oakville Art Society and has taught sewing and home decorating and children's pottery classes. Mrs. Beswick will survey Halton County south of Hwy. 401.

UPGRADE SKILLS

Sheridan plans to use the results of the survey to assist the various communities in providing programs to upgrade the skills of craftsmen and provide training in teaching and community leadership. The survey is also expected to help communities make greater use of craftsmen.

The survey will be completed in six weeks and a brief submitted soon after. Don Hamilton, director of Continuing Education at Sheridan College, hopes to have the required programs in operation by September, 1971.

Anyone interested in contributing information should contact Sheridan College, Continuing Education Division, 1430 Trafalgar Rd., Oakville.

Details History of Dance In Sorority Presentation

Members of the Zeta Phi Chapter of Beta Sigma Phi gathered at the home of Mrs. Carolyn Stuart of Langstone Cres. for a short business meeting, an in-chapter auction organized by the ways and means committee, and a cultural program entitled the dance presented by Mrs. Lois Rogers.

Mrs. Rogers started her program by explaining that the dance was a form of art done to music. It originated as expressions of sentiment, hate, blood lust, the joy of the hunt, hunger or love. These became formalized into dances which are traditional and unvarying. Some of the more important forms were selected by Mrs. Rogers and she told those present a little about each.

Religious Dances - These were performed for many reasons to the many Gods as a form of worship, they were usually rather frenzied as typified by Indians, Africans and other natives.

Folk Dances - Many countries adopted a dance which became typical of their surroundings, young men and women in gay costumes or national dress usually perform these on special occasions, or at certain times during the year. Some examples of these are Ukrainian, Scottish, Irish, Israeli, Russian and Polish.

Eurythmics - A type of dance or drill done to music for health and grace.

Free or Interpretive Dance - This is the type of dance which enables the dancer to move his body in any way he feels as he listens to the music.

Modern Ballroom Dancing - Very graceful and for show, usually taught at dance studios. In many countries competition dancing is very popular and there are many contestants, unfortunately here there is very little to be seen.

MUST BE DEDICATED

The last and greatest form of all is ballet. This originated in the courts of Kings in Russia, France and Italy. Ballet is an art, there are rules pertaining to it which have to be abided by, it is a reaction to the musical principles of rhythm, harmony, tone, colour and form. Ballet is not something that one can just do, it is a life which begins seriously at the age of nine and takes ten years of lim-

bering lessons, diet consciousness and very strict mental discipline. To be a dancer in the field of ballet one has to be completely dedicated.

To enable the audience to understand the rudiments of ballet a little better Mrs. Rogers asked Mrs. Pauline Hughes to demonstrate the five positions and the remaining members to follow her.

In conclusion Mrs. Rogers quoted the following by a man named Chesterfield: "Learn to dance; not so much for the sake of dancing, as for the coming into a room and presenting yourself gently and gracefully."

Following the program Mrs. Irene Seal and Mrs. Beryl Miller took the floor as auctioneers while Mrs. Deanne Mount and Mrs. Eleanor Cawley displayed the various goodies being auctioned.

Mrs. Stuart the hostess served coffee and cheesecake during the auction.

DID YOU KNOW?

Paraders brandish live lizards and carry pots containing cobras during the annual serpent festival in Shirala, India. When the rites end, the participants release both snakes and lizards unharmed.
