Although approval for the Esquering township Restricted Area by-law has been approved by the Ontario Municipal Board, the Board reserved decision on property owned by the Golden Horseshoe Dragway, known now as Toronto International Dragway, in their decision.

Then O.M.B. vice-chairman D. Jamieson and H.H. Lancaster called off the June 21st hearing at the township offices after a series of legal sparring matches between counsel for the Dragway and solicitors for the township, the North Esquering Ratepayers' Association and Charles Hildebrandt, leaving the dragway zoning still unsettled.

Mr. Jamieson ruled that the by-law merits careful consideration and although he appreciated the inconvenience adjournment of the hearing would cause, proper evidence must be shown before the board could make a decision. He said the issue was in the fact the township applied for the by-law approval and the municipality must show the O.M.B. why the by-law should apply to the Golden Horseshoe Dragway.

NO EVIDENCE  
Since there was no evidence here the O.M.B. would adjourn the hearing until such time as evidence was available and then the township could apply for a new hearing date.

Township solicitor Terry Baines testified he could have competent professional evidence on the stand within an hour but Walter Sopinka, counsel for the dragway, said it would be at least two weeks before he could assemble suitable professional witnesses and evidence. The hearing was called

because the Golden Horseshoe Dragway Ltd. allege that notice of the previous hearing February 11 was not received by them and the June 21 date was to permit the dragway and any other persons to make representations.

**PROPER NOTICE**  
It was suggested by Robert Swayze counsel for the North Esquering Ratepayers that dragway owners may have decided it was not in their best interests to appear at the previous hearing and he urged the Board to approve the entire by-law as it is. He supported the motion of Mr. Baines to approve the by-law since the municipality had shown by affidavit that proper notice of the previous hearing had gone to counsel for the dragway.

**REASONABLE DOUBT**  
However, Mr. Jamieson ruled that there was reasonable doubt that Mr. Sopinka had received notice of the previous hearing. "The post office is not infallible," he commented. He observed that there was no doubt that notice of the hearing had been sent out by the clerk. Mr. Sopinka testified by affidavit that he could find no notice of the hearing in office files.

**RECESS**  
"It taxes my client's belief that the owners did not know of the first hearing," he added.

Mr. Sopinka argued the Board accepted the sufficiency of the evidence to show he did not receive notice of the first hearing and the hearing should proceed. Mr. Jamieson and Mr. Lancaster called a short recess to confer and emerged with a decision favorable to Mr. Sopinka.

**ONLY REPLIES**  
Council for the municipality, the ratepayers' association and Mr. Hildebrandt argued that all the evidence concerning the dragway had been heard at the first hearing and the Board accepted the evidence. Baines suggested there was no further need for evidence to be put forward again, that the municipality would deal only in replies.

Mr. Sopinka argued that the by-law would affect the use of his client's lands and it was not his intention to introduce evidence to show whether the land in the south-west half of Lot 29, Sixth Concession, was a desirable place for a dragstrip. He intimated that council was sympathetic to the drag strip and a conforming use since they had issued a building permit after the by-law was passed but felt they were less than disposed towards the strip now.

**FELT COMPELLED**  
However, counsel for the other three parties argued that the municipality felt compelled to issue a permit or be subject to litigation in the courts. Mr. Swayze said that in his interpretation of events council passed the by-law to show the drag strip was not a conforming use.

Mr. Jamieson conferred with Mr. Lancaster again before deciding that the onus was on the township to show why the strip should be zoned agricultural and classed as non-conforming. As a result they decided a further hearing at a later date would be necessary when all the evidence could be assembled for a proper hearing.

**Feature Cut Short Majuery Adds Points**  
Ospringle June 27th. The six cylinder feature sure had its surprises to-day. On the ninth lap they were going three abreast when Don Owens spun and George Wrigglesworth ran into him. Wrigglesworth was able to continue but Owens had to retire.

Larry Majuery started in fourth position and by the second lap had taken over the lead from George Wrigglesworth. He chased Majuery until his accident on the ninth lap.

On the restart it was Larry Majuery, Lawrence Majuery, and Ed Dickson. Dickson managed to get past Lawrence on the eleventh lap. On the fourteenth lap Ed Dickson lost his wheel. With only one lap to go our head starter Brian Hill called the race, so Larry Majuery added another feature with Ed Dickson taking second spot, while Lawrence Majuery came in third.

# Sports

The diamond feature ran off rather well to-day. On the first lap Dutch DeBoer spun but was able to get back in again.

Ross Winters a new car to our track this season spun on the fourth lap and also got back in again.

Ed Stewart had to pull out on the eighth lap when he had a wheel bearing go and the wheel started to smoke. Chuck Lawlor started in sixth position and took over the lead from Cliff Faryon in the third lap. Chuck took another feature with Hugh Eckerich second and Doug Crocker third.
