Says Town Has Vacancy for Inn

Dear Mr. Editor;

A Motor-Inn for Georgetown? Hurrah!

The certainty of a motor-inn being built on the eastern limits of Georgetown would fill a long-felt need for such accommodation in town.

Two medium-height apartments to the rear of the inn will give tenants a splendid view of the Credit valley to the east and no doubt will make it a desirable location.

The location for this project has already been announced as it will provide accommodation in rooms and meals in a pictorial setting which will add much to its attractiveness.

location to live for its literal country appeal.

It is to be hoped that this project will become a reality before summer is over.

Yours truly,
Ed. A. Peters

A gold mine near Johnsville, Calif., appears to have been the home of America's first ski lift. In the 1860s, skiers slid down the mountain slope there on Sundays, riding up again aboard the mine's chain line ore bucket.
