

**The Weather**

**Mercury Reached 87 Saturday, Record High**

By Roger Smith

After the warmest September in 10 years, new temperature records were set in Georgetown on the first two days of October. On Friday, (October 1), the high was 84 deg., surpassing the old record for the date, 80 deg., set in 1922 and 1950. Then on Saturday, the high temperature reached 87 deg. This was not only a record for October 2 (old mark was 82 deg. in 1919), but a new high for October. The previous record was 86 deg. on October 5, 1951. (Records date back to 1914).

September had a mean temperature of 62.9 deg., 3.4 above average. The average high was 75, average low 51. The first 15 days of September were very warm, averaging 81 by day, 57 by night. This period was about 6 deg. above average. The remainder of the month had near-average temperatures, but there was none of the chilly weather which usually arrives in late September.

Every day had a high temperature of 60 deg. or higher, averaging 69 deg. Sept. 16-30. The highest temperature of September was 90 deg. on the 8th while the lowest was 35 deg. on the 25th. Only 1961, 1959, 1948, 1931 and 1921 were warmer.

**LITTLE RAIN**  
September was a dry month. The weather station had only 0.90" of rain (average 2.47"), although other locations in the area may have had up to 1.5" as thunderstorm activity was scattered through the area in the first week. There was measurable rain on 6 days, with traces on 8 others. 0.30" fell on the 13th and 0.43" on the 20th during an all-day downpour.

**NO FROST**  
If the weather stays reasonably good, there should be a spectacular fall colour display in about two weeks' time. The very quiet weather of September has kept most of the leaves on the trees, and there had not been a frost as of October 4.

**Problem Areas**

**Authority Enforces Watercourse Regulations**

Fill, construction and watercourse regulations have been enforced in problem areas of the Credit River Valley at Norval, Huttonville, Terra Cotta, Streetsville and Cheltenham during the past few months by the Credit Valley Conservation Authority.

These regulations, registered under the Conservation Authorities Act, (Ont. Reg. 84-71) govern the placing of sand, gravel, garbage or any type of fill in areas designated by the Authority; building any type of structure in flood areas or below the high water mark (determined by a hurricane type storm) of any lake or stream; interfering in any way with the existing channel of the watercourse.

**CHANNEL**  
Anyone thinking of changing a channel, building or filling should contact the local municipal office. Copies of the regulations and maps designating the regulated areas are available at these offices. If any construction work is planned in affected areas an application for a permit must be filed with the Credit Valley Conservation Authority at Meadowdale as per the regulations. A permit may or may not be issued for the proposed work depending on the individual case.

are enforceable. They have far-reaching planning implications in the watershed and provide the Authority with the means to cut down further potential flood damage in the valleys which are regulated.

**Most Ever Register for Night School**

A total of 450 people, the largest enrollment ever, turned up to sign up for night school classes at Georgetown High School, September 21. Only 310 will actually be taking courses, since many had to be dropped through lack of interest. Most of the courses dropped were academic credit courses. The courses proving most popular were the hobby types, with pottery, gourmet cooking, upholstery, interior decorating and dressmaking heading the list. Also in operation are a second language, furniture refinishing, welding, conversational French, and teenage dressmaking. Both wine-making and teenage dressmaking are new this year. Night school starts October 12, with various classes on Tuesday, Wednesday and Thursday.

**NOT AWARE**  
Many people in the valley are not aware that these regulations

**A LOT OF SCOT**

Piping in a maxi Scot with mini bagpipes is George Mitchell of 81 Raylawn Crescent. Six foot four inch James Forsyth, wearing the

Mackenzie tartan, was the impressive guest of the Mitchell household during a 24 day visit. He has since returned to his Inverness home.

**Limehouse - Silverwood 4-H Club Names Officers**

We extend sympathy to Mr. Alton Breckon and family in the passing of Mrs. Breckon following a lengthy illness. Rev. F. N. Young conducted the funeral at the McClure Funeral Home and burial was in Limehouse cemetery on Wednesday.

Rev. R. Kendall of Bramalea conducted services in Limehouse Presbyterian Church last Sunday, preaching in the pulpit vacant of a regular minister. He announced that Rev. James Sutherland home on furlough after 17 years in Formosa and formerly minister at Campbellville and Naasagweya, would conduct services next Sunday, Oct. 10 on behalf of the WMS.

The Limehouse ladies served turkey dinners to record crowd of over 350 last Wednesday evening.

The Limehouse - Silverwood 4-H Club held their first meeting in the fall project, "Keeping Mentally Fit" at the home of leader Mrs. Bruce Lindsay on Saturday. Mrs. Clow is assistant leader. In their election of officers Anna Marie Swinkles was made president, Mary Ann Magtzaam vice president, Henry Casselman treasurer, Rhonda Clow and Marsha Fry phoning committee and Lorrie Clow and Barbara Burt press reporters.

Twenty girls and two visitors attended. Pamphlets on driving, exercises, drugs, and safety in the home were distributed. — Mrs. A. Benton

**EARLY COPY, PLEASE**  
With Monday a Thanksgiving holiday, advertisers and those submitting news items are asked to provide copy today and Friday wherever possible, to enable the Herald staff to enjoy the holiday weekend.

**Too Bad, It Could Be The Kids that Suffer**

Dear Sir:

It certainly was a sad day for Georgetown and area when The Royal Canadian Legion found themselves in such a position that it was necessary for them to discontinue their support of Saturday morning Kid Hockey in that town.

I am given to understand that Branch 120 of The Royal Canadian Legion has operated Kid Hockey since 1951, and has spent in the neighbourhood of \$30,000.00 not to mention the time and effort of Legion members; their Ladies Auxiliary and others, down through these years.

The operation of Kid Hockey is a function of people who understand not only Hockey, but the system that must be employed to properly organize and run this particular type of sport.

While many figures have been mentioned in your newspaper, the 63 percent figure for 1970-71, or \$3,823.00, is rather intriguing. We understand the Esqueving Council issued a cheque to Hockey Association. In all cases except Acton and Georgetown, Minor Hockey, as previously mentioned, is promoted through a Minor Hockey Association.

It is, in our opinion, certainly going to be extremely difficult for a Recreational Committee to start at this time of the year, to sponsor Kid Hockey.

Another important facet to consider, is the fact the Referees in the Georgetown Referees Association, have given their time and effort, at no cost on Saturday mornings. It is doubtful that this will continue. If it doesn't, the Recreational Committee will be faced with an increased cost of upwards to some \$1200.00, if the Association is used.

All concerned should remember that a goal scored by a tyke, is just as important to him as it is to any of the top professional players in the National Hockey League.

Sweater sets are another important factor with Kid Hockey. Somebody is going to have to supply somewhere in the neighbourhood of 35 or 37 sweater sets at a cost unquestionably to the taxpayer. We certainly want to point out that procurement of sweaters at this time of year will undoubtedly be somewhat difficult.

It is unfortunate that the present situation involving Kid Hockey in Georgetown has been created. If anyone is to suffer, it could conceivably be the kids themselves. This situation in Georgetown, makes one wonder wherein the gratitude lies.

Yours truly,  
—C.F. Patterson

**NEW SEASON**  
A film, and question and answer period with O. McDowell of the Dept. of Education, launches the fall season for the Association for Children with Learning Disabilities next Tuesday in the high school cafeteria.
