

## New Equipment Tests for Hearing, Vision Defects

Four year old David Miller isn't a stereo buff. The earphones are part of new, Halton County Health Unit

equipment which detects hearing defects in pre-school children. The new service

testing pre-schoolers' hearing and vision was introduced here last month.

Vision technician Mrs. E. Davis checks David's sight with new electronic equipment. The testing, available by appointment through the Health Unit, now makes it

possible to detect hearing and vision defects during the pre-school years. Up until now these defects were not discovered until testing in school.

**CLEARING AUCTION SALE**

### Dust, Potholes, Speeding

## Condition of Fifth Line Brings Limehouse Delegation

After hearing complaints from a delegation of ratepayers, who live on the Fifth Line just north of the village of Limehouse, Esquimaux council has promised to look into the possibility of paving a stretch of the road next year. Councillors also agreed to contact the Department of Transportation and Communication to see if a 30 m.p.h. speed limit sign can be posted near a hill, which is situated there.

Mrs. Edith Regent told the meeting Monday night road conditions on the Fifth Line are terrible. She complained that graders working on the road stir up dust and that she can feel dirt on her kitchen table when the window is open.

Reeve Tom Hill explained council is undertaking to pave so many streets in the township's villages each year.

"Next year we're going to take a look at Limehouse and Stewarttown. Maybe we can pave part of the road into Limehouse," he said.

**SUGGESTS RECONSTRUCTION**  
Reeve Hill wondered if there would be enough width to reconstruct the road. "We can get construction money sooner than we can get maintenance money," he said.

Road superintendent C.E. "Bud" Snow said there have been two engineering surveys taken on the corner, which leads into Limehouse.

"We contacted a man two or three years ago about blasting at that corner. He said he wouldn't touch it, because of the school being there," Reeve Hill recalled. Limehouse school is located close to the corner.

Snow said the only way to cure the poor condition of the road is to hardtop it.

"We'll have to work towards that end," Hill added. "There's not much we can do this year, but we can pretty near guarantee it, if the department goes along with us next year," he said.

"If they don't go along with you, I suggest you let the potholes

go deep enough so traffic can't go more than five or 10 miles per hour," Mrs. Regent's husband Otto offered. Mr. Regent estimated some cars are travelling 65 to 70 m.p.h. on the road.

**ASKS SIGN**  
Another member of the delegation Don Brown asked about the 30 m.p.h. speed limit sign.

"If you can get it, I'll guarantee you I'll have the O.P.P. sitting in my driveway picking off speeders," he said.

A fourth spokesman, Joe Meuser, owner of Twins Woodworking, warned council about the dangerous curve in the road.

"One thing you should understand. When we asphalt the road they're going to go faster," Mr. Snow reminded the delegation.

"But we won't have the dust," Mrs. Regent replied.

### In the Mail Bag

#### Councillor's Resignation No Longer Necessary

229 Delrex Boulevard  
Georgetown

Mr. Editor:

I wonder if you would allow me to use the pages of your newspaper to advise the residents of Georgetown, and particularly those of ward 3, about my current status with regard to Council.

I have been able to work out an agreement with my employer which, as it stands, means that my family and I will continue to reside in Georgetown and, unless there are unforeseen circumstances, my position on Council will be unaffected.

For the time being, I am acting as a business consultant to the company's Montreal operation and, for as long as this continues, I will be flying home at each week-end and for every Council meeting, with any luck at all this situation should not be extended beyond the end of November.

Finally, to all those who wished

us well on our expected departure and to those who expressed regret about it, my wife and I would like to express our thanks and appreciation.

Yours very truly,  
—P. Siddall

#### Award Contract To Move House

Douglas Brander was awarded the contract for moving a house at 181 Main St. North, at a tender price of \$13,500.

The house is being relocated as part of the rebuilding of Ontario Street.

Engineer Eric Willis told council the house would only be unoccupied for five days.

Council approved the paying of a total of \$5,407 for the acquisition of land necessary in the

#### Pennies Trade Makes Economic Gap Vivid

Mr. & Mrs. George Smith Sr. celebrated their 40th wedding anniversary on Sunday October 17th with their family and relatives at the home of their son and daughter-in-law, Mr. and Mrs. Donald Smith and their children Diane and Lori.

Also present were their sons Kenny, and Mr. and Mrs. George Smith Jr. and their children Paul and Steven.

About 20 guests enjoyed the buffet dinner to mark the happy occasion.

Mr. and Mrs. George Smith Jr. and their two sons Paul and Steven, have moved into their lovely new home south of the village. They have built beside Mr. & Mrs. Donald Smith and opposite George's parents' home.

At a recent St. Paul's Anglican Ladies Guild meeting held in the Parish Hall it was decided to sell tickets for a Christmas Cooking Demonstration to be held in the Blue Flame Room, Brampton, on Tuesday, November 23rd.

Unit One of Norval United Church Women held their regular monthly meeting at the home of Mrs. Murray Laird on Thursday afternoon October 21 with Mrs. Wilbert Cleave presiding.

The roll call was answered with a poem or thought on "Thanksgiving" followed by the devotional on the same theme by Mrs. Samuel Shaw.

Mrs. Guy Wilson gave the chapter from the study book on the economic differences of the American countries. The economic gap was made quite real by playing a game where each one present represented a different country and were given pennies to trade with equivalent to the percentage of that country's economy. Some had 3c. and some had 4c. or 7c. but the U.S.A. had 24c. and Canada had 23c. Then they bargained, traded and bought the goods their country needed from each other. The poorer countries had very little to bargain with except what they produced in their own country.

Following the meeting lunch was served by the hostess assisted by Mrs. Harold Lyons and Mrs. Gordon Miller.

Two families in the district enjoyed holidays in Europe this fall.

Mr. and Mrs. Lawrence May enjoyed a four weeks vacation visiting Holland, a Rhine cruise into Strausburg, France, and on to Paris, then to London England, a seven days tour of Scotland and four days in Ireland.

Mr. and Mrs. Alan Harrop enjoyed a 3 weeks conducted tour landing in Copenhagen, Den-

mark, then on to Sweden, England and Scotland.  
—Mrs. Ed. McLean.
