

Senior, Junior Rebs Open Home Cage Season With Wins

With the exhibition season behind them the Georgetown high school senior Rebels marched into the regular campaign on the right foot with a 59-41 victory over the White Oaks Wild Cats at home January 12.

Colin Foster led the Rebels with 16 points and Brian Dunlop, Bruce Cartwright and Fred Harris each added 10 points to the Rebels' cause.

John Vanderdoelen was the high scorer for White Oaks with 15 points. Rebels outclasses and outplayed the Wild Cats in a well-played game.

JUNIORS

Under the careful eye of new coach Bob Paul the Junior Rebs looked impressive in pre-game action and continued it into the regular schedule when they started their season in earnest with a 52-30 victory over Milton January 7.

Ted Darce led the Junior Rebs with 23 big points while Pete Lauderdale and John Sales each added 10.

Milton Mustangs' top scorer was Bob Roberts who hooped 15 points.

Junior Rebs made it two in a row when they beat White Oaks 50-34 in their first home game January 12.

EARLY LEAD

Ben Kazimer led the GDHS crew with 12 points with Gerrard Jattan adding 10 and Ted Darce contributing eight. Valdez Olzola was Wild Cats' top man with six points.

Juniors took the lead from the start and never looked back, a pattern they hope to maintain throughout the season.

Only the Midget Rebels have yet to score a win, but coach Ron Hicks hopes to change that in the near future.

Still Looking....

Still looking for win number one are Georgetown high school's basketball Midgets. In the front, from left, are Jeff Crawford, Bob Lockwood, Brant Redman.

Middle row, Rusty Barker, Johnnie Gibson, Steve Foster, Doug Thompson, Gerald Williams. Back row, coach Ron Hicks, Blake Shortill, Howard Gaslin.

THE BIRDS

Here's the whole feathered world, with close-ups of everything that flies, some that can't, one that can go backwards, and many that have disappeared.

THE SEA

Four-fifths of all the world's living things live in the sea... from 9-foot worms to fish that "light up." Tides, waves, underwater mountains—it's all in this book.

THE EARTH

What is it that makes this planet apparently different from others we know? Here are clues to earth's ability to support intelligent life.

EVOLUTION

Darwin's famous theory, the puzzles of heredity, the struggle of each living thing to adjust to its environment—all explained in easy-to-follow language.

THE UNIVERSE

Man has walked on the moon—and that's just the beginning. Now we stand poised on the verge of interplanetary travel...who knows how far?

ANIMAL BEHAVIOR

Why do they do what they do? How do man and monkeys act alike? Here are answers to these and other mysterious patterns, bats' radar, and more!

THE REPTILES

Some are ugly, some are beautiful, some make great pets, and some are killers. More than 6,000 different kinds, expertly detailed in this book.

EARLY MAN

"Early Man" gives your child the opportunity to trace the development of mankind, from the earliest pre-ape of 70 million years ago to the modern man of today.

THE PRIMATES

The gorilla... just one of many primates your child can capture in his mind as he explores the world around him.

THE FISHES

More than an underwater tour, the Fishes focuses on the conservation problems in the waters of the world, showing the pollution dangers we must face up to.

THE MAMMALS

The bigger they are, they might still be mammals...on up to the 130-ton blue whale. Man is a mammal, and so is a dwarf shrew that weighs less than a marble.

THE DESERT

Not at all barren, the desert has its own special animal and plant life, all uniquely adapted to live under extremes of temperature and food supply.
