

**Fight Pollution While Learning**

# Park Classes Collect Paper for Recycling

A paper drive project at Park Public School ended Monday with the collected paper going to a recycling plant, and proceeds to a good educational use. With the final load still to be included the Park's four special class had already delivered six tons to the Iko recycling plant in Brampton.

A guest speaker from the plant had earlier visited with the four special classes at Park and gave them an insight into what happens to the newspaper at the plant.

**AIMS**  
Park principal Peter Oprica said the aims of such a project were to teach co-operation and responsibility through practical experiences in the community so that boys and girls can develop good social habits which will later help them to get along with people in the social world. It will also help them become aware of anti-pollution measures that can be taken. They learned to draw maps and became acquainted with street names through the project as well.

"They have gained experience in carrying out such a drive which included delivering leaflets to each householder, being courteous to the householder and in working in groups to get the papers to the school," Mr. Oprica told The Herald.

**TOUR PLANT**  
Next month they will visit the recycling plant to make a tour. The response by the public in the Park school area was exceptional and greatly appreciated by the boys and girls. Mr. Oprica said.

# Suggests Plaque for Green Gables Author

Mrs. George Henderson of Silvercreek, district president of the Women's Institute, was the guest speaker at Norval W.I. meeting held at the home of Mrs. Iris Green on Wednesday evening March 8. The president Mrs. Graydon Chester was in the chair for the meeting. The roll call was "Tell what the W.I. has done for you" with most answering the friendships made and the confidence gained through taking part in the meetings.

Mrs. Ina Terry introduced Mrs. Henderson who had several suggestions for the Norval W.I. one being a plaque to show that the well known author L. M. Montgomery had lived in the village for several years. Mrs. Henderson had several members take part in a skit telling about the history of the W. I. and this was followed by a quiz which was won by Mrs. W. Graham. Mrs. Chester thanked the speaker and presented her with a plant.

During the business it was decided that "sewing with knits" be the first choice for a short course. A luncheon and eucure was planned for Saturday March 18 at the home of Mrs. Jack May with each member to invite four guests.

All conveners are to have their written reports ready for the April meeting which will be the annual meeting and will commence with dinner at the Driftwood followed by the meeting at the home of Mrs. R. Crawford, Sr.

Mrs. W. Graham and Mrs. H. Gollop assisted the hostess in serving lunch.

Unit Two of Norval United Church Women entertained their husbands at a court whist party on Wednesday evening March 1 at the home of Mr. and Mrs. Gordon Laidlaw with 28 present. Prizes were won by Mrs. Jean Reid, Mrs. Ann Wilson, and John and Jean Dunlop. The enjoyable evening ended with a pot-luck supper. Mrs. Rosie Laidlaw and committee were in charge of the evening.

About 28 members of Norval United Church Couples Club attended the drug forum held at Huttonville School on Thursday evening March 9, which was part of the Education Week program of the Community School. There were two excellent speakers, Mr. Neil Latta of the Addiction Research Foundation and Detective Jack Webster, youth officer of the Chinguacousy police department, and films were shown followed by a discussion.

Following the drug forum program the Couples Club met at the home of Mr. and Mrs. Bill Laidlaw for their business meeting and lunch. A bus trip to Toronto was discussed.

Mr. and Mrs. Graydon Chester have returned home from a four weeks trip to New Orleans and Florida where they enjoyed lovely weather.

Mr. and Mrs. Jack May returned home from 12 days in Acapulco, Mexico, where the weather was perfect for their holiday.

Mrs. Norman Guthrie enjoyed two weeks visiting with Mr. and Mrs. Leo Wesselmann and their 4 1/2 year old twins David and Dale at Anaheim in the Los Angeles area. Mrs. Wesselmann was the former Lois Jarvie. While there Mrs. Guthrie visited Disney Land, toured the

Universal movie studios where she saw Rock Hudson, and toured N.B.C. television studios. She enjoyed the flight down and especially the return trip as there were no clouds to obstruct the view.

Timothy Pettingill, son of Mr.

and Mrs. Tom Pettingill, was one of the grade eight students from Altona Public School to visit Quebec for the weekend on an exchange visit. Timothy stayed with Bob Halcourt near Sherbrooke, Quebec.

Charles McCauley has been

transferred from Georgetown & District Memorial Hospital to the General Hospital in Toronto. Mrs. Harold Lyons is progressing well following surgery in Peel Memorial Hospital, Brampton. We extend get well wishes to both of them.

—Mrs. Ed. McLean

**DID YOU KNOW?**  
It is bad manners in Laos, when seated on the floor, to let your feet point toward anyone's head. Of the 32 souls Laotians believe inhabit the body, the least worthy dwell in the feet and the worthiest in the head.

Hauling in one of the last wagon loads of paper, from left, Jeff Paton, Paul Carriere, Willy MacDonald, and Larry Agnew.

## Nothing Quite Like That First Flight

by FRANK BULL.  
In last week's column I said range practice started 6 March. I guess I should have read the long range weather forecast, one thing for sure, that crystal ball has got to go, better luck next week fellows.

I understand the cadets who travelled to Acton enjoyed their basket ball game but I'm still waiting to hear the final score. Nobody seems to know or could it be they'd rather forget it, but then does it really matter, you enjoyed yourselves.

Saturday March 4, 15 cadets travelled to CFB Toronto (Downsview) for familiarization flights, unfortunately weather conditions were poor restricting flight to the airport perimeter. Cadets flying were: Sgt. Ezekiel, Cpls. Seeler, Campbell, Crawford and Deoliveira, LACs. Herrington, Heaton, Hope, Baker, Irwin, Doernbach, Albert, Klaus, Larson and Peavoy.

after all, it's an experience and ones reaction to an experience is a personal matter, even though this reaction may be obvious to an observer.

Flight plans will, weather permitting, take a squadron over its home town, providing of course the town is within reasonable flight time of the airport. This, I believe, gives cadets a most pleasurable experience as the pilot will criss-cross the town at low level banking to the right then left permitting passengers to see every part of town regardless of their seat position.

Over engine noise you can hear the remarks and laughs as they pick out things of interest to them. "There's my dog in the backyard," "Aunt's waving to me," "I bet they are still in bed," "Yeah I wish I was" and so it goes on.

The fellow who has never flown before doesn't know what to expect and that first flight is an experience he'll never forget. He deplanes with that "I came back" smile on his face.

The jet set take the biscuit for the pained "You gotta be kidding" expression when at the touch of a button a wind up like a toy friction motor, a few splutters and bangs our engine burst into life only to die. Another touch, a few more shakes, rattles and rolls and we settle down to something between a steady purr and the thwak-thwak of a chopper.

Expressions change as minutes later we roll a few yards and at a slow forward speed take off like an elevator the pained look is now one of wonder.

If flight conditions are smooth and traffic light each cadet takes a spell in the front right seat where he will fly the aircraft for a few minutes. At summer camp he will again fly the other, but by now he is a veteran. Nothing will be quite like that first experience.

Duty personnel for the week March 19-25: Orderly officer, O.C. Seeler, Orderly Sergeant, P. Henderson, Orderly Corporal, P. Campbell.

**FAMILIARIZATION**  
Air Cadets without familiarization flights could be likened to ducks without water or which very little can be said.

**If all your economy car has to offer is economy, you're wasting your money.**

**Many so-called economy cars aren't so economical when it comes down to what you get for what you pay.**

**Especially when you consider what you get with a Corolla. For the same money.**

**Unlike most other economy cars, the Corolla 1600 looks good.**

**Unlike most others, Corolla offers lots of big car comforts. Like leg room. Reclining bucket seats. A heater that heats. Fresh Flow ventilation.**

**Things that would cost extra on theirs, but come standard on ours.**

**Unlike most others, Corolla offers a cross-flow engine as standard. The most efficient 1600 cc going.**

**Unlike most others, Corolla brings a high resale value. (Consistently higher than other economy cars.)**

**And last, but certainly not least, Corolla offers economy.**

**Just like the others.**

**TOYOTA**

COROLLA 1600 with 102 hp Cross-Flow engine is available as 2-door sedan, 4-door sedan, coupe and station wagon; optional automatic. COROLLA 1200 with 73 hp is available as 2-door sedan and coupe.

Toyota cars are sold and serviced from coast to coast in Canada and throughout the world.
