Car Buyers
People often ask us if there are certain times of the year that are better than others for trading to a new car! The answer usually is that the state of the used car market is most responsible for the advantage of one time of the year over another.
We think that the next two or three weeks will be an excellent time to buy if you have a clean low mileage car to trade. The reason is that our inventory of '67's, '68's, and '69's is very low and we have buyers waiting. We won't insult your intelligence by saying that you can save \$600 or \$700, but you should be able to save \$100 and if your old car is really clean as much as \$200.
So head on over to our modern transportation centre and see salesman Mike Armstrong or Herb Jobb for a great deal on a new Pontiac, Buick or GMC truck.
