

This isn't Georgetown's (it) train - in fact quite often it wouldn't go - but the small type passengers didn't care much if it ran off schedule just so long as it ran. The train was one of the rides featured in the downlown's

them. So, enough of birthdays, for a few days. I wound up with two golfballs and two headaches. My German friend was luckier. His invitation was rather a spur of the moment thing, so we had no chance to buy him a gift, not even a ball for golf, which he thinks is a silly game, which it is when you play as I

My wife bought him a three-quart jug of milk and a tie she bought at the milk shop (it was a real beauty, as you can imagine), and a hamburger, which she ate herself.

I was rather nonplused, but dived into my tool box the's a great carpenter, for a doctor of philosophy) and came up with a beautiful, rusty keyhole saw which I had inherited from my father.

As I hadn't sawed any keyholes recently, I didn't figure I'd miss it. And it really is a beautiful little thing. A family helrloom, you might say. It has this blade which retracts and suddenly pops out. A sort of 19th century switch-blade.

I can tell you there were tears in Karl's eyes as he ran his finger over the teeth of that little rusty, dull beauty and murmured something like, "Lieber Gott Im

Himmel". I think that, in English, means something like. "Dear God, it's heavenly". Never did I think that I'd see a captain from Rommel's desert troops break down like that over a simple little

sentimental thing. In fact, he was so touched that he offered to come up and fix my picnic table. And I suppose we'll have to have a Norval News
