How to get the Income Tax People to lend you money interest free
 Interested? Well it's possible. Section 146 of the Income Tax Act "says" so. The Government encourages you to prepare for your retirement by giving you important income tax deductions on money you invest in a Registered Retirement Savings Plan. You can save hundreds of tax dollars each year this way. Your money is not taxable until retirement; then, only as income is received, (your tax bracket is likely to be lower then too).
 It all adds up to about the same as "borrowing" money from the Government, interest free... plus the savings that tax deferral may bring.
 You can learn the full story on income tax advantages on Retirement Savings from the well-informed professional who represents the Manufacturers Life. He is associated with a company that has a record for sound and profitable money management that's outstanding in the industry. When you talk to him be sure to ask him about the built-in guarantees that only an insured plan can offer. Phone him today or mail this coupon for a free, informative brochure on how you can save tax dollars.
