and he said that Montreal could not foot the bill for the millions of dollars needed.

His solution is to make the games Canadian, rather than parochial, with diversified locations.

Many municipalities would be happy to sponsor one phase of the games, he said, and while there would be some disadvantages in this, it would be a logical step, and there may be no alternative, he said.

MORE INVOLVEMENT
He urged more government involvement in sports.

Remember the old way of borrowing, when you had to have it to get it?

At Toronto Dominion, that kind of thinking has gone by the boards. TD's Cash-flow way to borrow puts the emphasis where it belongs. On the money you earn. Here's how it works:

You figure out the money you'll have coming in over the period of a year. And how much you plan to spend during this period. The difference between your income and your outgo is a guide to the amount you can comfortably repay when you borrow. And that's really about all we need to know for a Cash-flow Loan. So if

there's something you've been thinking about that requires more money than you have at the moment, talk to your TD Manager. He'll help you work out a Cash-flow Loan. That's Toronto Dominion's new way to borrow. If it helps you live the way you want to live, we think it makes good sense.

TORONTO DOMINION
The bank where people make the difference

Cash-flow. The modern way to borrow.
