Activities for All Ages Aim of Community Centre

The response to the second meeting of the community centre was very gratifying. A large crowd was on hand Monday night Jan. 22. Mr. Carl Voimar, chairman, called the meeting to order and spoke briefly to the audience. Nominations were held for the 1973 hall board.

There was also a recreation committee appointed. New members elected to the board were: Mr. Ivan Bird, Mr. Ginter and Mrs. Anne Trueman. Mrs. Ed Smith and Mr. Burnette, former members complete a committee of five.

The members of the recreation committee are Mrs. Linda O'Connor, Mrs. Linda Fabst, Carmen Bonasut and Bill Smith, who remained on from last year.

On Thursday night the two committees met at the hall for a discussion period. It was agreed that circulars should be sent out to residents and others to notify people of coming events at the community centre.

The committee hopes to organize activities for all ages from pre-schoolers to older citizens of the community.

Suggestions from anyone interested could be passed along to anyone of those mentioned on the committee. Keep in mind the participation of everyone is needed for a successful community centre.

The W. I. members, with the help of good neighbour ladies have completed the quilt set-up at the home of Mrs. Bud Snow.

We extend sympathy to Mrs. Edwin Perryman and family in the loss of a husband and father. Mr. Perryman passed away in Guelph General Hospital last week.

Several hundred dollars worth of damage resulted from a fire in the former Robert McEnery home on the 7th Line last week. The occupants are staying with friends until the interior of the home is repaired. — Winifred Smith

Culvert Size Delays John Street Bridge

Improvements to the John Street bridge have been delayed, because Credit Valley Conservation Authority has declined to endorse the proposal.

Last year, Georgetown council approved an estimated \$6,000 expenditure to repair the bridge.

The plan would have reduced the size of the culvert under the bridge by half.

But the Conservation Authority is insisting that the same size culvert remain.

Town Engineer Eric Willis told council's works committee Monday that the half-size culvert should be satisfactory. It is the same size as one further downstream, which channels the same stream under Maple Avenue, near the waterworks building.

"It seems strange," he told the committee "that they can dictate culvert size, but cannot give statistics on water flow".

Cr. Ern Hyde said that during Hurricane Hazel, which accounted for the largest water flow in history, no trouble was experienced with the Maple Avenue culvert.

Council will approach the Conservation Authority for reconsideration.

If the Authority stands firm, a double culvert will be the outcome.

True Blues Support Home For Children

The Blue Degree was exemplified for a new member, Mrs. Verna Whitney, at the January meeting of Halton's True Blue Club.

Year end reports showed the lodge in good standing. A sizeable amount had been forwarded to the LTB & Orange Home for Children at Richmond Hill, and a money gift had been sent to each child for a Christmas treat.

Plans for this year include the annual penny sale and a fall bazaar.

An invitation was received to celebrate the 12th of July in Port Perry. It is centennial year there. The new lodge head, Mrs. Cathy Chambers, presented a past mistress's jewel to Mrs. Mildred McNiven, who headed the lodge in 1972.

This year's officers are: Mrs. G. Chambers, worshipful mistress; Mrs. V. McNiven, Past W.M.; Mrs. Morley Mills, deputy mistress; Mrs. R. E. Harris, recording secretary; Mrs. V. Jarvie, financial secretary; Mrs. Harry Shortill, treasurer; Mrs. H. Preston, chaplain; Mrs. R. King, director of ceremonies; Mrs. B. Dixon, conductor; Mrs. F. McCartney, inside tyler; Mrs. A. Carter, outside tyler; Mrs. McNiven, Mrs. Jarvie, Mrs. I. Switzer, Mrs. Carter, Mrs. Harris, committee.
