THE NAME GAME

Actesquenassageo

Now that Ontario treasurer John White has told Halton municipalities that submitted regional government briefs, "thank you very much, but I like my idea," the populace of the future northern borough in the four unit Halton Region should be thinking of a name.

The northern borough embraces Esquesing, Georgetown, Acton and Nassagaweya. Out of Acton has come the suggestion that initials be employed and Egan be the new borough's moniker.

Using the same alphabet soup premise there will doubtless be wits submitting Gane, Agen, Gena, Gean, Nage and Nega.

Another kind of composite such as Acmonogram tesquenassageo would give the new community a name with an Indian ring to it which would no doubt please those used to calling Esquesing and Nassagaweya

Tan Town might be another Acton preference, and Esquesing's translation - Tall Pines - could be considered. Not many votes would be cast for Georgetown's old tag, Hungry Hollow, although it will no doubt be tossed into the hat.

Cetainly any proposal by one of the four member municipalities to have their name adopted for the unit would be voted down three to

But whatever the final choice, one can only hope it reflects more imagination than North Halton.

The Herald is interested inhearing about your suggestion for a name for the northern borough. Send your suggestion and reason in a letter to The Herald's Reader's Forum.

Now is the time to voice your opinion - before you're stuck with a lable like Nortown or Tip Top City, or, if there is much squabbling in reaching a decision,

Taxation Offer Is Odious

The federal government's offer to turn over to the provinces taxation of tobacco and liquor as a means of financing health services is so ironical and odious that it must be challenged on the basis of principle.

Strong words. They come from Dr. D. L. Wilson, president of the Ontario Medical Association, and they can be quoted without com-

The doctor said both levels of government are aware that tobacco and alcohol are the causes of major public health problems in Canada.

To make health services

budgets dependent upon continued use of these hazardous products is morally wrong. Certainly increased consumption of liquor and alcohol will necessitate increased health expenditures, but this inverse relationship is a poor basis for funding health programs.

The federal offer would provide a monetary incentive to increase sales of tobacco and liquor at a time when the medical profession and others concerned with the public health, including governments themselves, are endeavoring to reduce consumption.

Well said, doctor.

Superburger Is Diet Hero

The super-soyaburger is still a stranger to Georgetown, and most other Canadian centres, outside the big-city supermarkets.

Widespread acceptance of the hamburger and soya protein likely will depend upon a federal decision about the nutritional legality of the composition. So far, no one has said it can't be sold. But it hasn't received full approval, either.

All this seems strange when it is considered that the soya bean has been a staple protein food in the Orient for many centuries. The whole bean can be used in cooking. and from it can be made cereal. milk, curd, cheese, cooking oil and a variety of meat substitutes (Canadian soldiers will recall soyal links from army mess days).

The soya bean is used com-

mercially in all manner of products

that while sova is a complete vegetable, the body makes more effective use of it if it is taken with a meat protein. This explains its application in hamburger.

virtues have been promoted.

Red meat demand is likely to continue high, because Canadians eat more of it every year. It is probably, not likely, that soya protein will be used much more in the future. It is only a matter of time before superburger becomes an everyday term in Canadian

from soap to margarine. It is used in fodder for cattle and is fed to

Nutritionists, however, say

It has only been since the mid-1930s that soya has made gains in western diets, and then because its

ECHOES FROM THE PAST

10 YEARS AGO

The arena board's plan to utilize the arena facilities year-round instead of just during the winter will have to rely on something other than roller skating. A fact-finding committee appointed to look into the feasibility of using the arena's concrete floor for roller skating, doubts after investigating district roller skatme centres that the arena floor could take the punishment. A committee spokesman told The Herald Monday, June 3. that arenas visited had a special trap rock surface installed specifically for roller skating, and it was the opinion of other managers that a concrete floor would begut to flake after a short time.

One town, New Hamburg, attempted a rofter skating program on a straight concrete floor and found it was not successful

A year-end treat for members of the safety patrol at Park and Harrison public schools was voted by conneil when a grant of \$50 was made for this purpose. Police Cpl. Ted Scott told council that since the patrols were maugurated seven years ago there have been no children involved in accidents while en route to and from school

Three council members were vocal in als tempting to save a Mountainview Road tree slated for removal by the hydro commission because of interference with electrical lines "R's a beautiful clin, one of the few sound ones left" said Coun. Jim Emmerson. His opposition was echoed by Councillors Hildebrandt and Young, and the mayor as a hydro commissioner, was urged to have the commission take a second look

20 YEARS AGO

Council was asked by Sam Tennant to have something done about dogs running at large in town. He reported that his dog, which was tied, was mauled and killed by other dogs running at large. The chairman of the police committee reported that the matter had been taken up with police, and that in the future if citizens would supply police with the names of the owners of dogs running at large. charges would be taid.

Council agreed to transfer the property on which the hydro substation on Guelph Street is situated to the local commission now that the town hall property has been sold.

Council asked the property committee to bring in a recommendation about construction and location of new lavatories in the park. Cost of materials was not to exceed

Council discussed in detail the possibility of making a better approach on the roadway to the culvert on John Street. Turned down Perc Chaplin's price of \$4,000 for 240 square feet of his property in order to round off the corner and will do some filling on the west side of the road next to the creek in order to widen the

A fact finding committee appointed some weeks ago to compile data about the possibilities of a swimming pool for Georgetown met in the council chambers. Guest was Jack Sugarman of Toronto, an architect who had prepared tentative plans of what he considered Georgetown needed and approximate costs, etc. Mr. Sugarman was present at the request of a friend on the commuttee, Sid Silver

. 30 YEMRS AGO

The local ration board was a hive of activity again. May 31 to June 4, when it mailed canning sugar coupons to some 2,600 applicants for the extra ration. Volunteers from the town and Norval worked hard during three days so that the coupons could be in the mail the first of the week. They worked in shifts, under the supervision of P. B. Harrison, secretary of the local board, and assistant secretary. Mrs. J. P. Reid

Tickets sold for a Navy League Theatre Night, when My Sister Fileen was shown at the Gregory Theatre, netted \$30 for the purchase of ditty bags

P J Fordyce of Toronto was hired as Georgetown's new night constable by council. All members were present with Mayor Gibbons presiding and it was unanimously decided that the salary of the new employee would be \$25 per week. There were 10 applications to the advertisement to fill the facancy ten on the police force as a result of the resignation of night constable W. G. Emmerson

A bylaw saw the regulation and control of the emission of smake within the Corporation of the Town of Georgetown. Every owner, lessee, tenant, agent, manager or occupant of any premises in or of a steam boiler in connection with which a fire is burning and every person who operates, uses or causes or permits to be used any furnace or fire, shall prevent the emission to the atmosphere from such in a of apaque of Gh. period of more than six minutes in any one

generations. When you are constipated,

And it will. It has survived Pigs fiasco, and many another, not to mention a

disgusting and disastrous war in Asia.

It is also comforting to know that there are still countries in the world where powerful public figures can he brought to account. It couldn't happen in Russia or China. And it wouldn't happen in many a so-called democracy.

SKEPTICISM

has been lied to and lied to. He must be wondering whether he can believe anybody any more. I know I would be. There's nothing new in powerful leaders lying to the people they are leading.

On the other hand, the

average Joe in the States

must be becoming a little

skeptical, to say the least. He

Hitler lied to the Germans, Mussolini to the Italians, Stalin to the Russians. Unfortunately, their lies were not discovered by their peoples until the damage had been done and the world was

staggering back from the holocaust they unleashed. This time the truth is coming out, haltingly, so that the damage to a nation and a nation's pride may be halted irreparable. Let's hope so.

And let's hope the Americans come out of the sordid little mess, smelling of violets and ready to get back to the real problems they must solve: inflation, pollution, integration. They're great solvers of problems, and they have great problems to solve.

In the meantime, it

behooves us in Canada not to: sneer and point the finger. Let's pretend our neighbors are having a domestic quarret which is none of our business. Let's cultivate our

own garden. It needs it.
