Residents Want Council To Close Water St. Entry

The residents of Water Street asked council last week to close that street to vehicular traffic at the Park Avenue and Main Street south intersection.

pointed out that the closing off at one end would ensure that all traffic to the apartment complex would go directly there.

The letter, written by Dr. Roger Frost, a resident of the area, said the neighbors do not object to the proposed apartment development by McNally Construction, but were unanimous in the request to block the Park and Main access to the area from car and truck traffic.

The letter concluded by asking if the closure could be

Dr. Frost stated there would be an increase in traffic even if Water Street were converted to a one-way street. He pointed out the hazards of the steep hill, and blind corner.

"Any inconvenience would be mainly to the people already there," said the letter. He

done before the apartments are occupied to enable users to adjust to the change. Council decided to ask planning board and works committee for comment.
