ATTENTION! WATER CONSUMERS
Commencing the week of October 15th, 1973, the "Elevated Water Tower" will be taken out of service to allow refinishing of the tower both inside and out. As the complete Georgetown water system is operated automatically from this tower, the system will have to be operated manually on a 24 hour a day basis during the two to three week period required to complete this work. This could mean some small fluctuation in water pressures, but every effort will be made to keep these at a minimum. The Commission solicits your cooperation and understanding during this period.
