**RYDERS TV**

What You Should Know About Colour TV . . . .

In order to speed up service, we are adopting a strict priority system in favor of the products we sell. We honor the obligation to service Motorola, Magnavox, and Hitachi wherever purchased. Our training, our parts supply, and our technical information will be adequate to give competent service for these makes of products. We are also servicing dealers for the Sansui, Garrard, Xerox, etc. which we sell. Henceforth we cannot guarantee to give service to products sold by our competitors.

If in the past you have come to rely on us for service of a competitor's make of TV or stereo, we suggest you contact the service depot for this brand. This cut back in the scope of our service has come about through a general shortage of trained personnel throughout the industry. Further, there are a great deal more electronic products in use than ever before, and there is a real advantage in specialization. We have reached the decision to decline on products we do not sell after a great deal of consultation with service depots in other areas. This policy is the only one which guarantees prompt service to customers who buy our products.
