Mr. and Mrs. Mel Tamblyn And Letters

Couple Wed 50 Years Ago

Mr. and Mrs. Mel Tamblyn of Raylawn Crescent celebrated their Golden Wedding Anniversary July 29. Festivities were held at the Mount Airy Hotel in the Thousands Islands. While there the Tamblyns stayed as guests of Mrs. Elna Benson, the sister of Mrs. Tamblyn.

Attending the festivities were members of the immediate family as well as friends and guests from British Columbia. New York, Clevland and Toronto.

In honor of the special occasion they received a plaque from Premier William Davis a letter from Jim Snow, a General Leger and a letter from Prime Minister Trudeau. The Tamblyns have resided in Georgetown since they

PAUL G. BAKER

At the recent spring convocation held at the University of Toronto, Paul G. Baker received the PhD degree in English. Dr. Baker is the son of George and Florence Baker, 33 Weber Dr. He attended Georgetown District High School graduating first in his class in 1963 and is currently an assistant professor in the English department at the University of Western Ontario, London.

Arboretum Is Opened

The Ontario Agricultural College's Centennial Arboretum Centre, on the outskirts of the University of Gueiph campus, was officially opened as part of the college's centennial week celebrations. William A. Stewart, Ontario Minister of Agriculture and Food, took part in the opening ceremonies.

We, as a ministry, were pleased to participate in the development of this unique reaching and research facility. Not only will it provide a service for students and faculty of the University of Guelph, it also will be an invaluable public service to gardeners, landscape architects and the general public," Mr. Stewart said. "The Arboretum Centre embodies both the university's and the OAC's deep-rooted commitment to the balance bet-

ween man and nature." Serving as a focus for the 330acre Arboretum under the development just north of the campus, the Arboretum Centre facility was provided by alumni and other friends of the Ontario Agricultural College. The structure, built into a hill to be as unobtrusive as possible, will house meeting rooms, laboratory and office space, a reference library and visitors' Jounge and information centre.

Completion of the \$400,000 centre ahead of schedule is indicative of the growth of the Arboretum since 1968. Encompassing 20 widely differing soil types from deep, fertile loam to swampland to an abandoned gravel pit, the arboretum will be a living encyclopedia of more than 2,800 difference species of native and adapted plants from as far waway as Siberia and Peking.

Nurses Graduate From Sheridan

Three nurses from Halton Hills graduated from the Sheridan College School of Nursing during the fifth annual convocation held Friday. August 2 at Glen Forest Secondary School Mississauga. The graduates are Judi Howson of Acton and Denise Rawlinson and Gall Jameson from

Georgetown. total of 80 students graduated from the college.

Accident Tragic For Railroader

Dear Ann Landers: I am married to a railroad engineer. telegram from Governor- My husband loves his jobexcept when he hits a car. Most railroaders know it's only a matter of time, because it happens to all of them sooner or

My husband's time came yesterday. He is sick about it, but there was no way he could have avoided that accident. Two people died because the driver ignored the flashing signals and the whistles, took the gamble and lost.

I hope every person who reads your column will ask himself if he has ever done the same thing. If he has, I hope it was the last time. It's so easy to misjudge the speed of a train in distance. I have stopped at crossings and waited while other cars passed me and went over the tracks, even though the signals were going full blast. Some of them missed being hit by seconds.

Trains rarely can stop in time about the guy except that he's a to prevent an accident. What's more, a small car, if it is hit just right, can derail a train and injure or kill the crew.

I know this letter is too late to help the people who died yesterday, but please print it for the sake of those who are still taking chances. When they win, they win only a few minutes. When they lose, they lose their lives .- Railroader's

Dear Wife: In all the years I've been writing this column, sink, yours is the first letter I've received on this subject. Thank you for taking the time to write it. I'll bet you saved some lives

Dear Ann: I'm 27 and the mother of three children. I met a 33-year-old charmer at our plant bowling league and fel hook, line and sinker. I asked my husband to give me a divorce so we could be married.

Grant Okayed For Authority

Jim Snow, MPP for Halton east and minister of government services has announced of \$2,775 to the Halton Region Conservation Authority for preliminary engineering for the Joshua Creek Channelization. All member municipalities are considered benefiting and will be levied the authority's share of the cost.

Camptire Cautions

Camping can be great fun. But watch out for hidden hozards.

Everybody knows about the danger of fire and poisoned insect bites. But not many people have ever heard about the damaging effects of beryllium dust. Exposure to fumes and dust from a metal called beryllium can cause damage to the lungs. The fumes can come from the mantles of some-not all-gas lanterns used in camping.

The mantle in gas lanterns is a device, consisting of a sheath of threads, which gives off brilliant light when heated by the gas flame. When a new mantle is used. beryllium fumes can be released in the first few minutes. The mantle is usually lit in a confined space, such as a tent, and the camper leans directly over the lamp, breathing the fumes deep into his or her

Lighting any gas lamp, the first time it's used, in an open area and letting it burn 10 or 15 minutes in the open can reduce the hazard to the lungs. Taking care not to blow on the lantern to clean it, a process that stirs up the beryllium dust, is important.

Many products containing beryllium are not so labeled. and consumers are not aware that precautions are necessary to protect their health. Some brands of gas lanterns contain the metal but do not list it. Workers involved in making these products face the greatest danger. Beryllium is used mainly in the acrospace. nuclear, computer and ceramics industries.

GVAS Staff Completes approval of a provincial grant Radio Operation Course

In the month of July, their Restricted Georgetown Volunteer Ambulance Service answered 48 calls totalling 389 patient miles, that is the number of miles covered from the point the patient is picked up to the destination. On the two calls two or more patients were carried and on one occasion both ambulances were out at Mr. and Mrs. Carl Sinclair the same time. Standby duties

AROUND TOWN

WITH ANN SOMMERS

(...An advertising feature designed to keep you better informed of what's new around town).

Dog 'N Suds Drive-In

185 Guelph St.

877-7121

WHEN YOU NEXT visit Dog 'N Suds notice the attractive packaging that you receive with each order that you make. There is of course the hand-wrapping for the burgers and the hot dogs. These wrappings are especially designed to keep each Item warm. There are also paper cups for the drinks that you order and the gallon jugs for root beer, cols, lemonade and orange. This is a special feature of Dog 'N Suds and one that you do not find at a lot of drive-ins. Then of course, there is the condiment packaging which include ketchup, salt, vinegar and a fork. All this packaging is designed for the benefit and convenience of the customers. One thing that you should remember is that if you phone ahead for your take-out orders and come to the side of the building your order will be waiting for you. Dog 'N Suds hours are 11 a.m. to 1 a.m. and 2 a.m. on Fridays and Saturdays.

Fendley Florists

82 Mill St.

877-3582

THIS IS THE week of the Pioneer Days sidewalk sale and Fendley's will be willing participants of this extravaganza. Specials will include cut and dried flowers as well as arrangements. These displays, in keeping with the spirit of the sale, can be seen on the sidewalk in front of the store. Everyday is the day for flowers and if you can't think of anything better to celebrate try the TTC strike which is forcing you to walk and therefore to improve your health. Extra Touch is one of the themes of this store and now this theme will be brought to you on the sidewalk. You must be aware by now that Fendley's is THE place in Georgetown to get your flowers so when you are downtown during the Pioneer Days celebration stop in at Fendley's. It will be a pleasant experience.

Ryder's TV Sales & Service

35 Main St. S.

877-9796

LAST WEEK I broke the news that Ryder's was moving to Moore Park and I told you some of the reasons for this move as well as some of its advantages. But did I tell you that the service department would be on the main floor. Did I tell you that the large Sansul and Toshiba stereo component displays could be seen from the front window. Did I tell you that there would be more convenient parking at the Moore Park location. Well, if I didn't tell you now you know. What you should also know is that the sale at Ryder's is still going but the stock is going fast. Also you don't have to worry as yet about the rise in cost because Ryder's have bought ahead of time for the purpose of keeping the price down. Don't forget the new location as of the first of September is in Moore Park where renovations are going on at this ideal location.

Mike Tarp's Georgetown Chrysler

15 Mountainview Rd. N. 877-5108

MIKE TARP'S stay in Georgetown with his Chrysler dealership has been very successful and he wanted to take this opportunity to thank his employees who share much of the responsibility. The employees are as follows; Service Manager - Dave Lyons, Technicians - Jim Redford, Bernie Egerton, Tom Reynolds. , Bill Dumper, Bert Hunter, Utility men - Gord Johnson, Roy Leuenberger. Parts Department - Manager - Jack Neely, Co-ordinator - Randy Grace, Dispatcher - Phil Noble, Cashler - Janet Neely, Secretary Treasurer - Dick Baker, Secretary - Carol Hoodless, Bookeeper - Karen Teeple, Receptionist - Carol Ann Williams, Sales Department - Manager - Mike Trigiani, Sales Representatives - Dan Wagstaffe, Tony Zmija, Winston Hearn, Andy Malenfant. These are the people of Georgetown Chrysler who have made its success a reality.

Robert Gougeon Home Furnishing

95 Main St. S.

877-2522

THERE IS BIG doings at Gougeon's this week. There is of course the Ploneer Days sidewalk sale at which Gougeon's will participate wholeheartedly. But on top of all this there is a unique sale going on. This is a wall to wall sale that features half prices. This is quite remarkable in itself but there is even more. As a part of this sale there is a funvoting program in which the person who accumulates the most votes wins a trip to Chateau Montebello. Other prizes include a ten-speed bicycle and an easy chair. The way that this program works is that every time you come in the store you can register and receive a certain amount of votes. On certain days you receive more votes. Other people can register for you as well. When you buy something at Gougeon's you receive so many votes for each dollar that you spend. Then as the program progresses you can obtain votes for height, weight, mileage, books, buttons, etc.. This sale will last the whole month of August and it sounds to me like a very fun thing to get involved with,

John Boughton Jeweller

73 Main St. S.

877-4313

EVERYONE IS ALWAYS talking about those good old days. When Pioneer Days hits the downtown area those days will be back in Georgetown. Boughton's have decided to become wholehearted participants in this sidewalk sale. They will be participating in the ticket draws, costume contests and other activities such as giving out free tickets for popcorn and candy floss to the children of their customers. Also look for the specials on their current supply of rings watches and wallets. There will also be a free service in getting your rings cleaned, buffed and refinished. This is really going to be a super sale so when you are downtown during the Pioneer Days sidewalk sale be sure to stop in at John Boughton's store.

Mel's Antiques

Glen Williams

877-4488

IT IS QUITE evident what the news at Mel's is if one was to drive by his store in Glen Williams. The new extension is progressing nicely and when it is finished you will be able to see all the items that Mel has on display. Most of the big articles will be in the new part with the smaller things being in the same store with candy counter. Which reminds me that summer is the time for ice cream and you will find many flavors available at Mel's. If you want some refinishing done or if you would like some tips on how to do it properly go and see Mel. He also makes up kits especially for those of you who do your own refinishing. Remember Mel is continually in the market to buy those things that you may have been tempted to throw away.

Georgetown **Pools**

78 Todd Rd.

877-8072

WE ARE RAPIDLY approaching the back to school time which many people assume to mark the end of the summer. As far as Carl Heissler is concerned this is just the half way point in his pool construction. He is very willing in fact eager to build pools into the fail. In fact he is still building pools right up to the end of October and early November. There are some dates left in September so now is the time to place your order. Also you do not have to worry about a shortage of material because Mr. Helssler has ordered ahead in order to eliminate this problem. The newest member of that growing club of HAPPY Georgetown Pool owners is the Hockridges of 38 Shelley Street. I'm told that they are very happy with their pool. Ecstatic is probably a better word. The time that was needed to complete this pool with the customary craftsmanship of Georgetown Pool was phenomenal. All the more reason for you to order your pool right now!!!
