Who wants to know?

Your local newspaper leads the way in providing local citizens with a voice in your community.

The majority of school, city and provincial officials recognize the need for keeping the public informed. An informed citizen is an educated citizen.

Need information on a local bond issue? What's going on at your city council meeting? Local citizens want to know, and local newspapers report it... honestly and fully.

Local newspapers deliver, where other news sources leave off. People believe strongly in newspapers for several reasons: newspaper reading is a habit with most people; it's part of the habitual routine of daily life; and over eight out of ten adults read a newspaper every day — seven out of ten teenagers too! No other news media can match local newspapers for speedy, thorough saturation of your town.

Who wants to know? You do! And, your local newspaper is the place to find it — with a full report.
