THIS PAST SATURDAY NIGHT at the Gordon Alcott Memorial Arena, the Georgetown Geminis displayed what has been a problem of late in dropping an 8-5 decision to Dixie. The Geminis were leading 4-2 at the end of the first period, but Dixie bounced back to score five, second period

goals to one for Georgetown, then a single unanswered goal in the third period to pick up the win. It has been late second period and third period lapses that have plagued the Geminis in their last several losses.

Industrial roundup

Top teams take tilts

The rich got richer, and the poor, well, they were running on the spot in last Sunday's Georgetown Industrial Hockey league action at the Gordon Alcott Memorial Arena. Total Sports knocked off Guelph-Clair Sunoco to the tune of 6-1; Norval dumped Royal Pizza Kings, 6-3 and Thompson Construction rapped Sandhill, 7-1.

This definitely creates a first and second division in the GIHL as Thompsons, Norval and Total Sports all are tied in the top spot with six points while their closest rival, Royal Pizza Kings, are three points back.

Total Sports had their contest well inhand and were leading 4-0, before John McKeen got Guelph-Clair on the acoresheet at the 2:44 mark of the third period. Total Sports goals were notched by Dave Holmes, Brad Edgar, Mary Weaven and Arnie Lefebyre.

Ian Syme widened the margin to 5-1 on a scoring effort at the 9:48 mark of the third and Larry Fenlay rounded out the game scoring at 6-1 at the 18:43 mark. The scoring pattern was quite similar in Norval's win over the Pizza boys as they led 3-0 on goals by Brian

Beaumont, with a pair, and a single by Benny Heppes before Bert Osborne blininked the red light for the Pizza Kings at the 4:30 mark of the third frame. Gene Liglis and Benny Heppes, with his second of

Ontario Outdoors

They're our resources: save them

By Bob Ollivier, Member, Outdoor Writers of Canada

I am very vocal in my opinions, as most folk know. There is nothing wrong with this, and I think everyone has the right to speak out, so long as they know something about what they are talking about.

I have definite opinions on the forestry industry of Ontario, and their use of resources. The forest is an ecosystem, and as such must be treated as a special area. An ecosystem may be defined as any biological community and its physical environment that, together, form an interacting system in which each influences the other. Both are necessary for its maintenance.

Now, if you got through that then you can see that in these terms a forest is much more than trees. It is a whole complex of interdependent living and non-living components. I am laying this on you to help you to understand the part every one has to play in the maintenace of our forest cover.

About 80 per cent of the forest logged in Canada todays clear cut, where the entire crop is removed. The danger here is that the heavy machinery will damage the seedling and soil structure and cause erosion. After this the area is usually put to monocultures or stands of one ... species of tree. These areas are much less stable ecosystems and demand expensive care and maintenance.

We can do our part. When using the forests we can clean up after ourselves as well as more careless persons. We can encourage the planting of shrubs as I have

said before. Use only dead wood for a fire, and only in a safe location.

All the above does concern EVERY person using the outdoors for recreation or employment. And that means HUOY

I am not advocating that you sit down and do nothing now that November is here. I have explained over the weeks that this is the time I would like three months off to do nothing but hunt and fish. But it is not too soon to select a project for the winter months when things are a "little" slower.

For instance why not brush up on or takeup "map and compass" and apply this to the use of topographical maps and the finding of new places to hunt and fish. There are good books on the market, for instance "The Complete Book of Camping" by Miracle and Decker through the Outdoor Life library.

Then there is the opportunity to building and even sell bird feeders and bird houses. Pioneer chain saws have a booklet available at the cost of 49 cents that has the plans of some that are easy to start on.

Why not learn a little camperaft? It is not just for kids at camp in the summer. I go back to my books on camperaft many times and often remember somthing I had forgotten. The uses are many as well as making your next trip that much better, and more comfortable.

It is going to be a long and hard winter and if anyone asks you how you know, tell them I said so. I am not an expert but I do "read the signs" and when a squirrel has a thick layer of fat along his undersides when you skin it out, that is one of the signs. Put this with several others and it sure looks that way to me.

If not, so what. But I don't expect to be rishing the open water in the harbour at Owen Sound this year for Rainbow Trout as I did last January. But you can be sure I will be somewhere enjoying ONTARIO OUTDOORS.

the game, made the score 5-1 Norval, then Dave Wilburn

from Andre Nolet, pulled the Kings to within three goals at

the 17 minute mark of the third. Brian Beaumont effectively ended what could have been a Kings' rally, when he picked up his hat trick at the 19:07 mark for the sixth Norval goal and Bob Macdonald rounded out the Kings scoring with a counter, with but 27 seconds left in the game. Thompson Construction had it all over Sandhill in their 7-1 win, with Bob Marchand potting four goals, and Rick Thompson, Bob Inglis and John Snow adding singles. Don Glassford counted the lone Sandhill goal late in the second period.

There will be no games in the GIHL this Sunday, due to the Figure Skating Sectionals, however the following Sunday Total Sports meet Royal Pizza Kings in an 8:15 contest, Sandhill clashes with Guelph-Clair Sunoco at 9:45 and in a meeting of the "Big Boys" Thompson Construction takes on Norval at 11:15. Brian Beaumont leads the GIHL scoring parade

with 10 points on six goals and four assists, closely followed by Dave Holmes with eight points on four goals and four

Nelson Barber and "Stormin" Norman Lockhurst are the pick of the league's netminders as they both sport a fine 2.50 goals against average.

Goaltending Records

Brian Laird Grant Emmerson Rebs stand

tall in loss

In girls high school basketball action this past week, the GDHS Varsity "A" Rebelettes dropped a very rough 48-36 decision to Milton while the Varsity "B" Rebelettes continued their winning ways-five wins in a row--by completely outclassing the Milton girls, 41-21.

In the Varsity "A" game, Milton led 25-20 at half time and kept the pressure on for the win. A major factor in the Rebelette loss was however. Milton's overly aggressive style of play. As one member of the Rebelettes noted, "We go all out to win, but we're taught to play the game cleanly.", For coach, Mavis O'Neil, some solace ... the loss was that her girls did not resort to their opponents' style of play. Leanne Gilson was high scorer, hooping nine points, Shaaron Barclay and Sue Alexander followed with eight points each, while

The Varsity "A" squad's record is now 2-31. The venue: still gain a play at occur a they win this Thurs' .. s contes. against CTHS high school in Oakville.

Brenda Smith added six.

The Varsity "B Rebelettes were never really tested in their 41-21 drubbing of Milton and kept their unblemished win record intact. Sandy Chambertain, a graduate of Stewarttown Public School, was the high scorer with 14 points.

This Thursday the Varsity "H" crew journey to OTHS, and a win could lock up first place for them.

Gems blow hot and cold

The Georgetown Geminis of the Central Ontario Junior "B" Hockey League continued with their baffling, on-again, off-again type of hockey this past week as they completely dominated in a 6-2 win over Milton Friday night, then fell apart in the late going to lose 8-5 to Dixle in Georgetown on

Saturday night. League cellar dwellers, Milton, were not really in Friday's contest until the third period and by that time the "Gems" were sporting a 3-0 Rick Becker opened the

Gemini scoring at the 12:15 mark of the first period on a pass from Doug Pembleton and Doug Barnes made it 2-0 late in the period.

The Gemini dominance continued in the middle stanza as Steve Buchanan upped the

and Rick Becker in the space of 23 seconds to hold the one goal advantage at the 2:39

mark. Charlle Knoepfli made it 3-1 "Gems" at the midway mark in the frame, his first of two goals in the game, but the scoring spree was not quite over. Dixie edged to within one goal of the home town favourites as Steve Leggett scored, however, Charlie Knoepfli's second counter in a row gave the Geminis their 4-2

lead after 20 minutes of play. At this point, the Gemlnis appeared to have the edge in play and the two goal difference was indicative of the on ice action. All this changed abruptly however early in the second period as Dixle counted twice by the 4:33 mark to tie the game, then moved in front 6-4 before the Geminis could

hit the scoresheet agan. The final Gemini counter of the game was scored by Rick Becker, his second tally of the contest, at the 17:53 mark but Dixie replied once again and led 7-5 after forty minutes of

The Geminis were plagued by a rash of third period penalties and this more than anthing else prevented them from getting on track and when the final buzzer sounded, Dixie had their 8-5 win. Other Dixie scorers were Robbie May, who potted a hat trick, Bob White, Bob Herron and Pat Kennery.

This Saturday the Geminis host Oakville, game time 7:30 the Georgetown Memorial Arena, while the following Tuesday, they travel to Streetsville.

elbows, and the puck.

Simpson impressive

By Teresa Vermeer

A hockey team can expect some turnover in the player roster from season to season. The Raiders are no exception. as their lineup has new faces at the start of every new season. During the first few games

of the new season, it is interesting to listen to the fans vocalizing their support for the players. A good play by a new player results in a flurry of program pages being turned, as fans quickly attempt to find out WHO was responsible for the play! Some fans will wait to hear the name from someone else in the crowd, and lust let out acknowledgement with a "Nice play 18" or "Way to go

A new player is quick to gain recognition by name, not just by number, if he comes on as a strong player right from the first drop of the puck in the very first game. A few of the new members of the Raider lineup have been given a great deal of recognition. Schurr is recognized as one of the hottest scorers on the team. Pete Fendley Is acknowledged for his more aggressive style of hockey and one of the more exciting players, who is very quickly gotten the fans buzzing is Craig Simpson.

Standing at 6 feet, Craig does stand out in the category of height, but he is certainly a standout in the category of hockey ability. Craig plays the position of centre and he wins a

He likes carrying the puck and to prefer passing the puck and setting up plays, rather than just shooting at the net. It is inteesting to note that, as natural as he seems to appear this position, Craig has played as a defenceman and left winger in most of his of hockey career, prior to this

Up until Craig was 18, he played all of his organized hockey in the Toronto Hockey League, in the "A" division. Since the age of 18 and until this season, Craig has only played during the summer in the double rink league. In this league he has had the opportunityto play with college players, players from the Junior 'A' and 'B' leagues, and players with an international background, such as George Grigor.

Craig has played with such reputable players as Bill

high number of face-off draws. Harris, Steve Shutt, Dave Gardner and Mike Murphy. he does so with amazing stick- One of his former teamhandling feats! He also seems mates, George Grigor, convinced Craig to come out to Georgetown and try out for the Raiders. Are we ever glad that he decided to do sol! In the Toronto league, Craig lead the league for two years in penalty minutes, but very few

Depco: Jamle Hooker.

the penalties were fighting. This statistic backs up Craig's philosophy for playing hockey: he will do what he has to to win, but without an emphasis on fighting your way to the top! Craig doesn't believe in fighting, but on the other hand he won' be pushed around or stepped on. He'll only take so much aggression, and then he'll dish it out too! Craig has stated that he

believes many of the players in this league are more interested in getting the other guy, than in really playing hockey. I'll back him up on that point!
