

Arthur Maloney (middle right) and some fellow Nassagaweya residents

# Ombudsman's office available to everyone

Arthur Maloney, Ontario's first Ombudsman, is concerned that people throughout Ontario have access to his office and his staff. But Maloney won't be waiting for the mountain of citizens' emplaints to come to him. Maloney plans to go to the mountain.

Mr. Maloney speaking before many of his neighbours at a meeting last Tuesday night of the Nassagaweya Ratepayers Association in Brookville Public School, explained that the staff of the Ombudsman's office have been developing a "blue print" on the operation of the new setup.

The key to it will be "concern with the interests of the ordinary citizens," he explaintu.

Handling the workload which, since the office was formed in the fall of this year, has reached well over 1,400 cases, is a large staff of researchers based in an office almost totally isolated from any involvement with Queen's Park.

"We must show everyone that we are not part of the civil

service. We must remain aloof of it if we are going to remain at all free of it."

early months of the Ombudaman's work in helping citizens deal more easily and fairly with all levels of provincial government, have been the recent public hearings held in North Bay which proved so successful Mr. Maloney noted that he has plans to hold similar meetings throughout Ontario during the

early part of the new year. The North Bay hearings saw 90 different people present their stories of claimed "injustices" suffered at the hands of civil servants.

A suggestion made during the hearings which Mr. Maloney is now considering is the setting up a branch office in northern Ontario to provide closer contact between the Ombudsman and the people of the north.

The Ombudsman's office, although concerned with the ordinary citizen, Mr. Maloney noted, is equally involved in ensuring that "the lone voice of society" receives a proper

hearing from the provincial government. "You don't have to be down and out to approach One of the aspects of the our office for assistance. We're there to serve any person who ordinarily speaks

as a lone voice." That, he explained, can include businessman, a municipality that is unable to afford proper legal advice, or even an MPP who is in need of some assistance.

A special office of the Ombudsman in Queen's Park is open any time the legislature is seated, Mr. Maloney said, to help MPP's with anyproblems. Although the Ombudsman's

office is still in its first stages of life Mr. Maloney noted that "mill is running quite efficiently. People will begin to see and feel the full results of our efforts very soon." The mail strike has slowed

down the demands for assistance, he added. "I'm afraid to think of what is waiting for us once the mails start flowing again." "People will have to have a little patience."

Trying to "be the best" in his pine.

new position Mr. Maloney has been carrying out a great deal of research into the office of the Ombudsman which, while new to the Ontario government system, is an established part of many other governments, both in Canada and overseas.

Mr. Maloney told the audience that he has already met with his counterparts in the seven other Canadian that established Ombudsman systems. He has also travelled to the United Kingdom. Germany and Israel where he has met with over 50 different officials from those countries' Ombudaman offices.

"It's invaluable to sit face to face with the man who has your same job and find out the problems he has faced, how he has handled them, and what he would do if he could start all over again."

Mr. Maloney was presented with a wood carving by Bill Johnson, chairman of the Nassagaweya Ratepayers Association. The carving depicted a griffin and was done using a piece of Nassagaweya

# Library busting at the seams

To the Editor of the Herald "Complaints is many and various but the old divil likes It." That happens to be the title of a new book about Newfoundland's early history. I don't think I ordered it but if even one person asks me for it I will rush right out and get it because I love the title.

Actually we probably don't hear as many complaints as we ought to be hearing. What makes me say that? Well, not so very long ago the Library Board displayed some rare unanimity by politely tearing a strip off the librarian's hide when a borrower complained that there wasn't enough fiction in the library.

Apparently this is a universal complaint with a multitude of variations. Such as: "What happened to the good novels they used to

A. Johnson commented: "The

books?"..."My name has been on the list for the Bermuda Triangle since last spring and I still haven't got it" (this from the Chairman!)

Well ladies and gentlemen, this is the gist of our answer to this problem. A: For the past five years 37

percent of the new books purchased by the library has been fiction. The Canadian Library Association standard calls for 10-20 percent of the collection to be fiction, so we are well above standard in this respect. However, and this is the crux of the situation, the current standard for the size of collection calls for 3 books per capita or a minimum of 54,000 volumes for a population of

collection of 24,000 and to add write?" "How come all you've new books we must throw out got is junk science fiction?" old ones. Judicious weeding of "Why can't I ever find the collection is a necessary varied as is the spectrum of Catherine Cookson's part of the library's business individuality.

Renaissance not bogged down

students in our schools.

3. to insist on a re-emphasis

and parents for the Halton

public education system:

but what we are forced to do with the fiction collection goes beyond judicious weeding.

B.C. & D: The good novels of yesteryear? Well, some of the old reliables are still writing but after all most writers, except Creasy and Simenon, don't turn out more than one novel every other year or so and thus the supply is a lot more limited than the demand.

Also, undeniably, styles in writing alter to reflect the standards and tastes of the current mores. If sex, violence and four letter words sell like hot cakes then as far as the publishers are concerned they are doing something right. If sex, violence and four letter words hit the best-seller list then the library will be asked for them and they will provide Hm, yes well...we are as much as they can afford bursting at the seams with a within reason. Deplorable?

Tastes and standards in reading are as subjective and
