## Rebels slip: drop two

The GDHS Junior soccer Rebels had a bit of a trying week as they dropped both their games, 1-0 to Q.E. Park in Oakville on Wednesday and 1-0 to White Oaks at home Monday. This brings their season record to two wins and three losses, but coach, Chris Bertelson still feels his charges are capable of gaining a playoff berth.

The Rebel's next test is this Wednesday when they journey to Blakelock High School. This coming Monday they have a home game against Perdue.

In both the losses, the Rebels can be said to be victims of circumstances. In Oakville, Q.E. Park scored early in the game, then a very strong cross wind arose and made mockery of attempts to control the ball. According to Bertelson, most of the game was played off the playing field and what scoring chances did materialize were soon nullified by the wind factor.

On Monday, it was clear that White Oaks were the better team. That they were held to only one goal is very much to the credit of Rebel goaltender, Dave Deere. The score could easily have read, 3-0 if not for Deere's acrobatics. White Oaks were on the ball quicker and made full use of a short, accurate passing game to stymie the locals.

## Brenda Hill finalist

## Tennis clubhouse okayed for Gordon Alcott

The construction of a clubhouse by the Gordon Alcott tennis courts was approved in principle at the Monday night general administration committee meeting.

Described as a "minimum maintenance cost structure," by representative of the Gordon Alcott Tennis Club, Crandall Murray, the proposed clubhouse will consist of toilet and changeroom facilities to be utilized by the public as well as members.

GATC money, possibly combined with a municipal grant, will fund this project.

Results of architectural and engineering studies to discover the feasibility of building the clubhouse by the tennis area at the west end of the courts, will be presented to the general administration committee in the near future.
