

HALTON HILLS AUTOMOTIVE NEWS

Most of us like to think that we are careful drivers. And, we are, most of the time. Some accidents happen to drivers who are usually quite careful, but who may have their attention distracted — even for just a moment.

Here is a check list of some of the most frequently encountered distractions compiled by the Canada Safety Council:

• Reaching for something in the glove compartment while driving. Cure: Have everything likely to be

needed out of glove compartment before starting put, or, pull off the road and stop.

• Trying to read a road map while driving. Cure: If driving on unfamiliar territory, first find out exactly where you are from street names, highway signs, or other landmarks. Then pull off the road, find the location on your map and plot out your next move.

• Trying to put on or take off a coat or jacket while driving. Cure: Stop the car, out of traffic. How many

drivers have been caught with one arm in a coat when a traffic signal turns green?

• Trying to locate an object dropped on the car floor. This hazard is especially dangerous to smokers, who are aware of fire dangers from a fallen cigarette, or aware of damage that can be done to the car seat or clothing. Cure: Stop the car, in the case of a cigarette, as quickly as possible. Never try to solve this problem while the car is moving.

• Having clutter or garbage on the car floor. Cure:

Always carry a garbage collector for pop bottles, drink cans, or other items that can so easily roll under a pedal.

• A bug or other insect in the vehicle. This one is prevalent in summer. Cure: Either take the bite, or stop the car at the first opportunity. Sometimes, driving with windows open can encourage insect to leave — he's probably just as happy to be out of your car!

• Items on the dash. Business papers that can blow

away, pencils, crayons or pens that can disappear down the defroster vents, portable radios or tape players that can fall, and similar items should never be kept on the dash while driving.

• Storage over the sun visor. Once again, the elastic or whatever secures items can break, causing distractions, or your attention momentarily taken while trying to retrieve an item from this position. Cure: For both of these last two items is simple. Just don't do it. There are other places where items can be kept safely.

GET TOUGH AND SAVE MONEY.

Datsun Sportruck Longbox.

If you want a tough pickup, we've got it. If you want a pickup that'll save you money, we've got that, too. In fact, we've got both in one. The Datsun Sportruck Longbox. It comes with a low sticker price and high gas mileage...up to 37 m.p.g. on the highway and 26 m.p.g. in the city according to 1976 E.P.A. tests.

The first time you take a rough road with a heavy load in the full seven foot box, you'll know it's tough. The Datsun Sportruck has a 24-hp overhead cam engine for the power-to-weight ratio you want for heavy loads.

The Datsun Sportruck comes with plenty of standard equipment: dual padded sun visors, flow-through ventilation, dome light, outside rear view mirror, package tray and more. And for some extra money, you can get this tough pickup with the soft touch of automatic transmission.

Come on in and see all the great Datsun pickups: the new Sportruck Deluxe Cab, the Sportruck Pickup, and the Sportruck Longbox.
