Harry Levy deserves thanks

The 1977 Georgetown International Bantam Tournament will mark the first time in 11 years that the tourney's chairman position has not been held by Mr. Harry Levy. Mr. Levy, a former Councillor for the Corporation of the Town of Halton Hills decided last year to work merely in an advisory capacity and handed over the chairman's position to Mr. Paul Milne, a young man who has worked with Levy, for the past several years, in the organizing of the event.

of the organizational challenge. It should be noted that very few men would be likely to take up the challenge, if they knew the amount of work involved.

The tournament, under Mr. Levy's direction, has been praised as the "most highly organized administrative tournament in Canada" and teams that have competed here have regularly endorsed this statement.

Although he has never played the game, apart from the old shinny game, Mr. Levy's dedication to this tournament accurately expresses his love for the game and for the youngsters who compete.

Georgetown minor hockey in particular and minor hockey in general, owe Harry Levy, a debt of gratitude. He has unselfishly given of himself to help promote the sport and his contribution will have a lasting effect on anyone who has ever been connected with the tournament.

Although Harry has relinquished the Chairman's position, the organization he leaves will no doubt be used as a showcase in the staging of other tournaments throughout the minor hockey system.

Harry has not completely removed himself from an active role in the tournament however, as he is the event's Treasurer and will be on hand, personally, during the running of the tournament in order to assure it's smooth operation.

Mr. Levy had been involved with the tournament since its inception, in 1961, but at the request of Red Asseltine, in 1967, the Georgetown Kinsmen Club took over the organizational aspect and Harry accepted the Chairman's position.

Asked why he became so involved with the tournament, Mr. Levy explained that it was basically because
