

Chess Mess By The Doubled Pawns

The traditional Brampton Chess Club Open Swiss tournament, held in the fall, this year ended in a tie for first place between J. Kalewicz and S. MacLeod. A match arranged to break the tie has just recently been completed; it was a best of three affair.

Steve MacLeod	1	2	total
J. Kalewicz	1	1	2
	0	0	0

Both games were extremely hard-fought and could have gone either way. The time limit was 45 moves in two hours.

Game 1 — J. Kalewicz - S. MacLeod, Sicilian Defence.

The semi-finals of the World Championship Candidates matches start in July. Former World Champion Boris Spassky (USSR) goes against Hungarian Grandmaster Lajos Portisch, while Victor Korchnoi who recently defected from the Soviet Union to settle in Holland, will play Soviet Grandmaster Lev Polugaevsky. Spassky and Korchnoi should probably be favoured. The winners will play for the right to meet world Champion Anatoly Karpov of the Soviet Union next year.

Georgetown's top ten rated players:

10. Brad Waters 980

UPCOMING EVENTS: Saturday, June 11, 1977 - Toronto Speed Chess Championship, 8-round Swiss, Starts at 1 p.m. Further details in future columns.

Dianne Emerson Graduates with honors

After four years of hard work Dianne Emerson of Georgetown received a Bachelor of Science, Honors Program degree from the University of Guelph last week.

Not only did Dianne, 22, graduate with distinction (85 per cent) but she also received two awards - the College of Physical Science Graduation Award and the Society of Chemical Industry Merit Award.

Dianne, who attended Georgetown District High School, explained that she always knew that science would be her field of study. She majored in chemistry after her first year.

Dianne is now employed in Mississauga by the Cambrian Group who specialize in analytical work.

On Thursday, June 9th, Elect . . .

GEORGE GRAY

"A Man Of Proven Vision, And Administrative Capability, Pledged To Serve With Energy And Humility Every Constituent In Halton-Burlington"

GEORGE GRAY — HIS PLATFORM AND ACTIONS

- I am pledged to work with unceasing diligence for every citizen of Halton-Burlington for the betterment of our riding, as a place to live and work in.
- I will be accessible to every man, woman, or child who may have a problem they wish me to work on and solve.
- I will work in harmony with every level of municipal government, every board, and commission, in order to further the fortunes of the riding and it's people.
- I have been increasingly busy trying to solve the Milton school problem having met with Education Minister Thos. Wells on May 19, the school board on May 24, the Milton public meeting on May 26th. I have arranged a meeting with Mr. Wells for Monday, May 30th, at the specific request of the parents group and the school board. This meeting will include all parties mentioned. I am hoping to resolve the problems on May 30th.
- I do not agree with many of the items in the Blair Commission report. If elected, I will hold a series of public meetings in the riding to obtain input from our constituents. In the meantime Premier Davis has already said that he would not implement many of the provisions in the report, and he has also said that more public meetings, and input would be required on the balance.
- HYDRO CORRIDOR - The court has ruled that the expropriation hearings must consider alternative route evidence. This is an example of our democracy at work. Whatever the outcome, and wherever the line goes, I intend to see that landowners are properly compensated for the intrusion, and inconvenience.
- UNEMPLOYMENT - I am continuing my efforts to bring new industry to the riding of Halton-Burlington. I expect to announce several of these this week. New industry will provide jobs for our people, improve the residential - industrial base, thereby holding down your property taxes. Jobs within Halton will conserve energy because our people will not have to commute so far to work.
- INDUSTRIAL DEVELOPMENT - I will work energetically with the new Halton Industrial Development Commissioner to assist him in any way to provide new industry.
- REGIONAL GOVERNMENT - I was one of the instigators of the Bill 151 Regional Government review committee, which has been formed by the region. This committee has already made some suggested changes to the regional government and is continuing to work on the review.
- GEORGETOWN HOSPITAL NURSING BED ADDITION - Due to my efforts, the Ontario Cabinet, and the Minister of Health, have ordered a complete review of the freeze on nursing beds in the province. The request for the addition has been presented to the Halton Health Council, and we are awaiting their approval. In the meantime, I need more signatures to our petition. I will follow this proposal to a successful conclusion.
- SANITARY LANDFILL - The Region of Halton is planning to proceed with the construction of a Resource Recovery Plant. Complete Resource Recovery is possible, with only minor residue. I will continue to push for complete investigation of all systems available, while the Resource Recovery Plant is in the planning and construction.

Tina Warren

Visits from London

Former Georgetown resident, Tina Warren, 21, an honors student at the University of Western Ontario in English and History, was visiting over the weekend with her long time friend, Cindy Gray. The Warrens moved to London, Ontario from Georgetown in 1970. James Warren, Tina's father, is an industrial design teacher at Fanshawe College. The Warrens have recently completed a camping trip which took them to parts of Canada and the four corners of the United States. Tina expects to graduate in two years and take a year of journalism studies at Carleton University in Ottawa.

Council to review parking

Works committee has requested a site plan of condominium corporation 29 in the Kington Hill Estates be presented showing the number of resident and commercial vehicles being parked there before council considers changing the parking bylaw restricting overnight parking.

A petition was received from the area owners but town engineer Bob Austin said not all the signatures were those of condominium residents.

"The landowner is responsible to provide enough parking space for vehicles," Coun. George Maltby said, "and the condominium is on a main thoroughfare of traffic which is blocked by all the parked cars."

"I don't think the town should permit daytime parking at all and should erect no parking signs," he said.

However, Coun. Pat McKenzie said the town allowed the condominium to be built knowing there isn't enough parking space.

Residents have received parking tickets and are upset because there isn't enough parking space. Coun. Maltby said anyone with more than one car has to expect to park somewhere else.

A Strong Dependable Voice for Halton-Burlington
