Facilities in danger?

By HIBBEE
 Having gone at length about the lack of administrators, helpers, whatever you may wish to call people, over the past few weeks perhaps it is opportune to air facilities problems.

The state of Centennial field is dangerous. It is very surprising to me that there have been few serious injuries in girls soccer. Whilst the field is the property of the board of education, I understand that upkeep, repair and maintenance is the responsibility of the parks department.

What repair and what maintenance? I fail to see any evidence other than line marking from time to time. The field at Moore Park is better than Centennial but only just, and the question of what repair? and what maintenance? also applies.

Most of us are aware that the main Cedarvale renovations contractor has to make good the default of the original work and is to start on the 3rd of October.

Also there is an area of damage to the small field to be done end what about the remainder of the small field, also treacherous?

The new changing room facilities are progressing at the community centre and hopefully will be ready for 1978. Yet again is budgeted the proposed new field probably at the Alcott Arena.

As a soccer group we will continue to press for better facilities. You as a participant and/or parent could do much more to pressure our inept council. Let your council representative be aware of your concern over the state of existing fields and lack of fields in general.

As a parent are you concerned at the conditions under which your child plays? If so please do something about that concern. If there is no reaction, do we assume that you are content? We are certain that the council will so assume.

REP REPORTS

BANTAMS—Lost to London in the Ontario Cup as expected, perhaps, but fervently hoped for a better result. Nevertheless, the lads tried hard to overcome the odds. They came back with a fine 3-1 victory over a complaining Brantford team. Steve Robbins turned in a fine display in goal, surprising himself at times by his expressions, and I feel was the inspiration behind the win. All the team played well and the offside trap was very effective.

PEEWEEES—Continued their hard working efforts of recent matches and resulted in a 5-1 victory over Dundas following a close defeat by Chinguacousy. Ching were fortunate to get both points in the last five minutes, like most of our losses. Riv Kennedy got the goal and Jeff Walterworth

saved a penalty kick. Jeff followed this with another penalty save against Dundas, proving he is still one of the best in Halton and Peel. Gary Lockwood, Howie Oram (2) and Pat Promerano (2) got the goals. Peter Haller made a fine return with Chris Manhire and Howie Oram playing superb stuff. Andy Jones, in from Quebec, shows much promise and overall we did very well. Anthony Oram played good stuff and had to leave following a broken arm and is out for the season.

GIRLS—Had their problems in the Ontario Cup at the weekend going down 7-1 to rivals Oakville who seem to strike terror when they oppose. The girls like the boys have the local Halton and Peel Cup to go for now and the first matches are due shortly. Keep your eye on the schedule.

their loss. Mike Mitchell and Rick Greenwood teamed to hurl the win. Coach Hank Chaplin happy with the victory said it was the result of a solid team effort. Rick Greenwood socked two triples and Mark Roberts a triple and a single leading the Tiresmen at the plate. Paul Guistini was the losing pitcher with Joe Boucher, George Osborne and Jamie Craig all smacking triples.

Executive named for curling section

After a number of years, the Men's Curling Section at the North Halton Golf and Country Club at last has a complete executive for the coming season. At a meeting on August 23 the following positions were confirmed.

President - Mr. Jack Crichton
 Vice President - Mr. Les Ashcroft
 Secretary - Mr. Chris Bridge
 Treasurer - Mr. Bob Bruce
 Social Director - Mr. Howard Jewell
 Publicity Directors - Mr. Chris Bridge, Mr. Howard Jewell

O.C.A. Representative - Mr. Ken Phillips
 Peel-Halton Representative - Mr. Gord Partridge
 Bonspiels - Mr. Warren Brooke
 Membership Director - Mr. Doug Collison

At the inaugural meeting, the new executive discussed ways in which the curling section could be improved. Chief among the concerns of the executive was the attraction and retention of the new members necessary to ensure a full and satisfying curling season.

It is the hope of the executive that a full games schedule can be utilized. Curling on Monday, Tuesday, and Thursday, there will be the opportunity for club and rated curling as well as an opportunity for team entries. New and old curlers alike will benefit from the curling school and also from the ongoing instruction which will be available weekly throughout the season.

Ice will be available in mid-October and plans were made to kick off the season with a men's stag night. The executive at its next meeting on August 30 will continue to explore ways of making curling "the thing" to do this coming winter.

Pot of Gold

Mexico's newest resort in the Caribbean, ultra-modern and incredibly beautiful.

Its first inhabitants, the Mayans, named it "Pot of Gold". Centuries later, vacationers re-discovered this magnificent resort set on the tip of the Yucatan Peninsula. Joined to the mainland by a causeway, two fingers of land provide separate access to a wonderful stretch of white sand beach, sloping gently into a turquoise sea. Behind this natural barrier lies a clear blue lagoon, 12 to 15 feet deep, thick with lobster and gametfish, providing a perfect backdrop to what is fast becoming one of Mexico's finest resorts.

Explore the sights

International cuisine, discotheques, boutiques

Explore nearby Chichen-Itza, Uxmal and Tulum enigmatic monuments to the once-proud Mayan civilization. There is excellent snorkelling and skin diving off the powdery beaches in just about the clearest water in the Caribbean, while marinas and yacht shelters are an integral part of this new resort. Two first-class golf courses designed by Robert Trent Jones provide real challenge to the golfer.

International cuisine, Mexican national dishes and regional specialties are all excellent. Seafood is, of course, served everywhere and is wonderfully fresh. Try some of the downtown restaurants - their prices can't be beaten and the seafood is superb!

Boutiques abound in the major hotels. Look for leather goods, pottery and authentic handicrafts designed in the Yucatan. The shopping district is located in the town of Cancun, some 10 minutes drive from the resort area. Watch for the Villa Maya, a small replica of a Mayan city, which doubles as a shopping centre.

Try the Polynesian Restaurant, the Mauna Loa, which features a lively floor show. Many hotels have discotheques, such as the Camino Real and the Chilly Willy in the centre of the town jumps with action till the small hours.
