

## Ontario Outdoors

By R.C. (BOB) OLLIVIER  
**HUNTER SAFETY COURSE** - To prepare you to take the Ministry of Natural Resources license exam, Sept. 14 and 17th. at Cold Creek Conservation Area. This is a two part course and other dates are available. Contact Metro Region Conservation Authority at 661-6600 or call me at 877-9290.

Sunday outing at Kleinburg; 10 am to 4 pm at the Kortright Centre for Conservation starting September 11, 1977. A million bees will be doing their thing for you along with interpretation by Horst Goelner, a local bee keeper. Bees are NOT dangerous; and among the most fascinating creatures God ever created. Runs four weeks.

**LAKE THOUGHT** - The Ministry feels it would be impossible to have new regulations into effect by the 1978 season, and will hold further discussions on the subject.

**DUCK OUT TO DARRINGTON DAY** is again upon us. The date is September 11 and the 6th annual Sportsmen's Day is held at Darlington provincial park just east of Oshawa south of Hwy. 401. A full day of activities and contests. It is a must for the outdoorsman and his family.

Keith Lather of Chrysler and Latham Ltd. released the report on the "old paper mill dam" on the Credit River and the Credit Valley Conservation Authority received it on August 12, 1977. The report, however done and regardless of the conclusions, will be controversial. And that is a fact.

One part of the report that I read stated, "It is concluded that the removal of the paper mill dam and the reduction in flood potential at Glen Williams is marginally

## Hunter safety

uneconomical based upon a benefit cost analysis. It is concluded that the removal of the dam will have no effect on ground water and wells. Unfortunately removal would eliminate the scour hole at the base.

My feeling is that I have not heard before, the topography of the area is a natural for forming its own 'scour hole' at this same spot. The C.V.C.A. is "waiting for a decision by the Halton Hills Council". You and I both know what this means: Wait for the procrastinators that don't stick their necks out. Until someone makes a commitment, nothing will be done.

The following is my own feeling and I am ready to take any consequences for it - he who sticks his neck out will either get it cut off, or crowned. It is a chance you must take, but eliminate all negatives first. Politicians, whether Federal or Provincial, or Civic, run for office and are elected because of their willingness to 'stick their necks out', and their apparent intelligence in searching out the answers first!

If that's being too hard on politicians, then give me a better definition. One that I can understand and relate to. Yes the salmon are really piling up at the mouths of the well-known rivers such as Bronte and Credit. Others as well, I know, but wherever you go don't forget the safety factor, and the crowds. Going fishing during the week will eliminate some of these crowds but not all of them. Courtesy and consideration for others may be returned to you and make fishing a little more like it is supposed to be FUN.

I may even see you out there salmon fishing in ONTARIO OUTDOORS.
