

MESSAGE FROM THE MAYOR

On behalf of the Members of the Council for the Corporation of the Town of Halton Hills, it gives me great pleasure to advise all of the citizens within our municipality to take advantage of the Community Programmes and facilities available to them.

Participation in activities being made available should be taken advantage of by all. Not only does fitness develop us physically but also mentally while giving us the opportunity of developing our friendships by meeting the people involved.

The Members of Council commend all of the volunteers, in whatever capacity they may be involved, who devote their time and efforts in the many activities made available to our citizens.

The Staff of the Recreation and Parks Department are ready to serve the public by providing a number of programmes, facilities and services. If any of your interests are not included or reflected within the programmes of the brochure, please contact the Town's Recreation Department and advise them of your interests.

I appeal to each and everyone as citizens of the Town of Halton Hills to support in every way possible our Community Associations.
