

He's out at first! This Norval runner was just too slow for the Flyer's first baseman, as he gets tagged just before the base.

**GEORGETOWN INDUSTRIAL FASTBALL LEAGUE**  
Semi-final series Best three of five 7 full innings  
Tentative revised play-off schedule for semi-finals

| Date                    | Home                    | Visitor                 | Time      | D | G |

**First prize corsage made by Allen team**

Sadie Hawkins was the theme for the business girls' final Tuesday evening on August 30 which was called the "Sadie-Sam Ball Sweep". Traditionally, corsages were made and given and a prize for the best corsage went to Ken and Marion Allen. Golf winners were: Low Gross, Harvey and Jean Chappel, Lot Not-Donna and Gary Notar, Pats-Marion Allen and Harvey Chappel, Hidden Hotel.

**Curling a great way to socialize**

North Halton curlers! It's time to think curling. We are told we have ice by the middle of October this year so check out your brooms and sliders, fill out your registration forms early and plan to be on the ice by, imagine Oct. 15.  
New curlers! We have openings for new members at North Halton, so anyone wishing to join a long cold winter plan on shoring us for a warm, social game of curling.  
This year the club welcomes back the Itay Turnbul-Wally Ursulak Curling Seminars. Ray and Wally are both former Canadian and world champions. They have been conducting curling clinics internationally for ten years now and boast some very successful students - Otte Danelli, the world champion from Switzerland and Lee Tobin the Canadian Ladies Champion from Quebec are but two.  
The clinic will be held at North Halton Oct. 21, 22, 23 at which time two different programs are being offered. The basic program, for beginners or curlers who wish to improve their style of delivery and sweeping technique.  
The advanced program for those who attended the clinic last year and any other experienced curlers who wish to improve their strategy and game play. Also again this year the school will run a junior program consisting of 5-6 hours of instruction commencing Sat., Oct. 22 and Sunday, Oct. 23 at 9:00 a.m.  
Each senior student will receive 8-9 hours of instruction split between the classroom and on ice instruction. Video tape equipment will be used again this year and believe me it's a real treat to see yourself in action. Class times will be 1:30 p.m. and 5:30 p.m. for the Basic Program and 8:30 p.m. for the advanced program.

By R. C. (BOB) OLLIVIER  
The regular Trout season closes here on the 30th of September, so make a note of it and get in your last licks now.

In fact the season closes on the 15th in some areas. It seems like they just opened, and now we have to start watching for the various season closures. There are lots of Chinook Salmon in the river mouths now, but the Coho are mainly out a ways yet.  
Jim Staddon and I tried to get out last week, but the five foot rollers prevented that. We fished in the harbour areas and put up with the rough waters. The Chinook were rolling or "porpoising" and they just don't seem to hit when they are in that mood. The large "party" boats were getting out and picking up plenty of Coho at the three mile mark.

It seemed that anyone that got out there was getting lots of fish, mainly on Chartreuse colored ANDY REEKER spoons, or Red Fluorescent Flatfish in the T4 size. But then again it all depends on who catches the first fish and what he was using, because you can be sure that everyone else will put that on their line, and then that's all that is presented to the fish, and therefore it turns out to be the number one fish getter.  
I watched as several fishermen came in on that rough water just to get some Andy Reeker's and they had to spray paint the correct color a d wait for them to dry before heading back out three miles on the huge rollers. It did seem however, that a DODGER must go ahead of the lure at least when fishing at the deeper and farthest out fishing spots.

The eight Coho I photographed were all good clean fish, with the exception of one lamprey scar.  
The new hunting regulations are now available, and I would suggest that you get a copy and study it as soon as possible. There are always changes of one type or another, and ignorance of the law is no excuse.  
Duck opens Sept. 15th north of Hwy. 17 and Sept. 24 in Southern Ontario. For me it is always hard to progress from fishing to hunting, and I never know which one to choose, often taking along my rod as well as my gun, to some of the areas in Southern Ontario.  
It is well that these two tremendous sports over lap in Ontario. Maybe a good pastime would be to take your duck call with you when fishing Lake Ontario and practice calling while fishing for salmon.  
There is no shortage of ducks down there, and it just might satisfy your feeling for both sports. As I have said on many occasions, there is always lots to do in ONTARIO OUTDOORS.

**Soccer Report**

By HIBBEE  
Quite a number of soccer enthusiasts were at Victoria Park in Brampton last weekend to watch the National World Cup squad play a series of matches against local teams. I managed to see most of the last match which was lacking excitement, yet always interesting.  
There are some talented performers in Canada's team and I am certain that more than a few were surprised at some of the skills shown. Two of the squad were guests of our own Stu Robbins.  
Although the visit was mentioned in a well known national daily it is regrettable that notification was not given out by Canada Soccer to minor organizations. A lot could have been learned from Bull Parson of Vancouver for his restless running and air work; Ike Mackay of Portland skills on the ball and goal scoring abilities, Cosma's Rob Iarusec's fine defensive skills and a fine save from Toronto's Bilecki made my visit worthwhile. Another impressive performance came from Bob Bolitho, of Vancouver, in midfield.  
To see these guys in action would have given any aspiring youngster an opportunity to see what the future may bring. Home spun Canadians are spread throughout the NASC and are learning fast how to mingle in the top ranks with Remenbauer, Pele, Marsh, Best and others. Georgetown Falcons, perhaps not in the same breath, have several players this season who have come through from minor soccer, the Lockwood boys, Rob Lister and Mike Deere are well known examples.  
In comparison with some of their opponents at Cedarvale the Falcons appear to have a much higher percentage of home produced players and all credit goes to coaches and managers of past years.  
Future players from minors? Stefan Boy, Howie Oram, Riv Kennedy, Chris Manhire, Jeff Waterworth, Mark Rose, Kevin McArthur, Mark Sawden, Gary Skelton and Louis DePaoli - and there are others as promising and only space prevents mention.  
There are three areas of concern to be solved for next season. I return again to the thoughts and need for some form of re-organization required, I believe, to improve our soccer. Recently facilities, or lack of, has been well aired and the need to be constantly kept in the forefront. Uniform problems have not been mentioned so far. However there are still some problems in this sphere and I feel we made almost a complete hash of arrangements. We were hindered by late registration, having to increase team numbers, later ordering of equipment than normal which did not allow us any time margin, late arrival of equipment, lack of urgency from our suppliers, and lack of control all round. Our referees system has worked well in the main and registered and stand by's have done a tremendous job throughout the season. The league system has also gone well, the majority of problems appearing to land with Pee wee and girls overall. There has been better co-operation with the Seniors (mainly from minor to Senior I maintain) and with the recreation department.  
This is not to say we should be complacent. In fact the contrary, improvement always is the key to the future.  
The Mariners shorthanded two weeks ago came through with an 11-5 victory over the Metros, boosted by some Bantam reps. I kept the lads on their toes by allowing the five goals and Gary Spiller accounted for 6 Mariner goals. I must say that 6 of our goals started with moves from myself in goal, only to show that a goalkeeper is as

much an attacking player as a defender. We followed up with a fine 5-1 win over the Falcon 'B', who had a few first teamers turning out. Young Steve Robbins, guesting for us, popped in 2 well taken goals with assists from you-know-who again and his father Stu. The Wolves handed the Metros a second defeat to win the unofficial "championship" of the major Pee-wee-Bantam section of the Tuesday league. I wonder at the possibility of expanding this competition next season.  
At our exec. last week we made the play off draws and these have probably been notified to coaches-manager by now. The schedules will appear in the press also. The Junior girls and Squirt semin finals and finals will be on small Cedarvale and the others on the large field. Cup Final Day is on 1st October from the Bantams Metros and Wolves at 9:30 a.m. to the last match - Senior girls at 3:30 p.m. Semi-final dates have not yet been allocated.  
League championship and cup trophies and medals will be presented at the end of each age group final match. We require last year's winning coaches to return cup trophies to their respective commissioner as soon as possible. My idea and proposals for the change over to a club system were introduced as food for thought and I shall make these public knowledge over the next few weeks. One thing we agreed upon is that the present system does not work. Changes are essential if we are to progress.  
Georgetown problems received a special hearing in Oakville last week. Regrettably other parties from Waterloo and Hamilton were not in attendance and very little was resolved. Our main problems have been in areas of discipline, unfulfilled matches and arbitrary decisions without presentation. We held a general discussion and the unresolved matters with Waterloo over the girls last match in Waterloo and the abandoned Bantam games with Dundas and Hamilton are basically held over until later this month.  
The lads lost a close tie with London by 2-1 and on this occasion were unlucky not to win. London went at them in the first half and were on top, taking the lead. The second period was a different story following the first half surprise.  
London were blessed with a defensive error to present them the winner in the last five minutes. The Pee Wees go to Waterloo on Saturday for their quarter final match.  
News and Photos of the Squirt's Bradford tournament success will be available next week. The Squirt's won, Atoms and Mosquitos failing to qualify for the finals.

**Wildcats quick to draw 4-1 victory over Spurs**

Georgetown Minor Soccer Association  
Week ending Sept. 9, 1977  
**SQUIRT DIVISION**  
Spurs vs Cougars 0  
Terry Dixon, Wayne Snow with two goals each, and Derek Oram paced the powerful Spurs. Scott Kowalski, David Hicks and Graham Purdy played well for the Cougars.  
Wildcats 5 Tornados 1  
Jason Brew had a great game and scored three times. Steve Musprat and Brendon Cleary added singles. Jeff Mills scored for the Tornados who never stopped trying.  
Blue Jay 1 Cougars 1  
Davin Cigen of the Blue Jays and Scott Kowalski traded goals in a closely played game. Mark Preston in goal and David Hicks were the Cougar stars while Harvey Jonkman and Mark Berry led the Blue Jays.  
Wildcats 4 Spurs 1  
This was the last game of the season for these two fine

teams, and to add drama first place and the league championship was at stake. The Wildcats struck quickly and were never headed after. Jason Brew with two goals, Brendon Cleary and Steven Musprat did the Wildcat damage while Philip Hughes

replied for the Spurs. Mark Moody and James Xanthos anchored a solid defence for the Wildcats.  
The play of Terry Dixon, Garry Butwell and Derek Oram for the Spurs was outstanding. Congratulations to both teams for a fine season.

**For hunting enthusiasts**

The Ontario Federation of Anglers and Hunters in co-operation with the Ministry of Natural Resources is hosting two Moose Hunter Seminars this fall.  
The first is to be held in Toronto on September 24 and 25 at York University. The overall objective of the seminars is to involve game managers, researchers and the hunting public in a dialogue concerning present and future moose management.  
The Toronto seminar will take place on Friday, Sept. 24

**What's the most accurate shot in hockey?**
