Performance and Value with **Simplicity**

Match the dependability and looks of the 727 washer with the 747 dryer for an unbeatable economy team. The 727 washes the most delicate fabrics or the toughest with two speeds... automatically, perfectly. Other cycles are normal, Perma-Press and pre-wash. It also features a fabric softener dispenser, fluorescent-ill top panel and optional suds saver. The 747 push button dryer... set it and forget it! Simplicity's quality system of low temperatures and high air flow gives you safe, clean and quick drying. Perma-Press, regular and automatic dry cycles (2) dry your wash to the right degree. The convenient fluorescent backward light, door-mounted lint trap and acrylic finished drying drum, complete the picture.

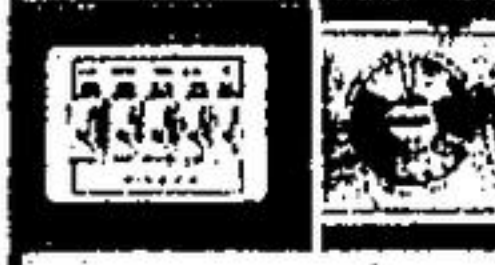

ENERGY SAVERS

Solid Tub Design
Solid design holds less water than conventional perforated inner tub to save on energy usage. Also, uses less detergent to save you on operating costs.

Vacuum Drying
Lower temperatures coupled with high volume air flow means clothes dry faster and safer. Lower heat requires less energy.

Automatic Dry Cycle
Complete temperature selection and automatic dry cycles lets you choose the proper fabric temperature and turns off dryer automatically when clothes are dry, saving energy and preventing over-drying of clothes.
